Silver Tiger's CEO, Glenn Jessome, stated,

"These next drill holes through the Sulphide Zone have extended the strike length another 25 meters to the North with consistent high-grade widths similar to previous Sulphide Zone holes.

Drilling on the Sulphide Zone continues to step out along strike to the North and South.

"The first 26 drill holes in the newly discovered Sulphide Zone indicate wide zones of high-grade mineralization varying from 10 meters up to 50 meters with grades from 300 grams per ton to over 1 kilogram per ton silver equivalent. This adds the potential for underground bulk tonnage at exceptional grades."
