Underground Rehabilitation at Historic El Tigre Mine Update

As previously announced Silver Tiger has contracted Cominvi, a Mexican underground contract mining and development company to rehabilitate the Historic El Tigre Mine.

Cominvi are progressing well in the underground rehabilitation of the Historic El Tigre Mine and have already completed over 400 meters of rehabilitation in Level 7, which was the main portal to the mine.

Silver Tiger is still on schedule to reach the Sooy Vein in the coming weeks and then begin underground drilling.

Silver Tiger’s CEO, Glenn Jessome,

stated;

“We continue drilling underneath the Northern unmined portion of the El Tigre Mine.

“We have drilled more high grade silver intercepts in the El Tigre Vein and the Seitz Kelly Vein like the old timers mined up to 1930 when the great depression closed the mine.

“We continue drilling multiple holes deep under the old mine where we had our wide high grade silver discovery that was announced two weeks ago.

“This exploration target is 1300 meters long by 500 meters deep and open to depth and to the North, with all three of the Sooy, El Tigre and Seitz Kelly Veins passing up through it.”
