

# Strongbow Exploration to benefit from the switch to ethical tin mining

**Strongbow Exploration {TSX.V: SBW}**

Was featured in the Industry News Review website, highlighting that ethical sourcing was leading to a revival of the Cornish tin industry, pioneered by Strongbow Exploration.

CEO Richard Williams explained that mining from ethical sources was becoming more important in today's hi tech world, where tin is used for solder in devices.

## Strongbow Exploration {TSX.V: SBW}

Was featured in the Industry News Review website, highlighting that ethical sourcing was leading to a revival of the Cornish tin industry, pioneered by Strongbow Exploration.

**CEO Richard Williams** explained that *“mining from ethical sources was becoming more important in today’s hi tech world, where tin is used for solder in devices”*.

Global consumption of tin is rising as a result of the hi tech uses for the metal, rising 2.5% in 2018 alone. With the profusion of devices such as smartphones this will only increase exponentially in the future.
