Gold Road Resources Publish AGM Corproate Presentation

Gold Road Resources (ASX: GOR) published an updated corporate presentation for their recent AGM.

Gruyere achieved record performance in 2022, producing 314,647 ounces of gold, with Gold Road's 50% share of production at an AISC of A$1,447 per ounce, in line with guidance and at one of the lowest costs of production in the sector.

Chairman Tim Netscher stated;

"In April 2023 we reaffirmed our outlook of a sustainable 350,000 ounces of annual production from Gruyere until at least 2032 – placing us firmly in an exclusive club of ASX gold producers able to talk about solid, sustainable and predictable production out over 10 years.

"As a result of Gruyere's strong performance, Gold Road was able to report a full-year net profit after tax for 2022 of $63.7 million, from revenue of $382.9 million.

"2023 has got off to a very strong start, with a record quarterly free cash flow of $44 million delivered in the March quarter as we benefitted from record mill throughput

and a record price for our fully unhedged gold production."
