

Why I sold Aris Mining This Week

Aris Mining (TSX: ARIS)

Aris Mining has been a good investment for me, up around 50% in a few months, helped by a healthy rise on the gold price of course.

I sold the stock this week on the back of the Colombian government's new mining law, which introduces uncertainty, and I don't like uncertainty when I'm investing my own money.

Why I sold Aris Mining This Week

Aris Mining (TSX: ARIS) has been a good investment for me, up around 50% in a few months, helped by a healthy rise in the gold price of course.

I sold the stock this week on the back of the Colombian government's new mining law, which introduces uncertainty, and I don't like uncertainty when I'm investing my own money.

I have always been a bit wary on the Colombian government's anti mining stance, but this new law threatens the producing miners, despite the fact they produce billions of dollars tax

from the government, and provide employment.

Now this new law is being introduced, it's possible a nature reserve could be declared in any part of a company's licence, and their project terminated, see [HERE](#) for full details.

So, despite Aris Mining being a good company, this new threat towards mining in Colombia has led me to sell my holding and bank the profit.

Interestingly, since the announcement the stock has fallen over 50 cents, which suggests I'm not the only one deciding to sell since this news was released by the government.

I'm reasonably risk tolerant, but where politics is concerned, I prefer to play safe, as things can change in the blink of an eye, and that's a level of risk I am not prepared to accept.

So, sadly I wave goodbye to Aris Mining, a stock that has benefitted me well in just a few months. As the old adage suggests, *it's not a profit until it's in the bank.*

Mining Review 25th August 2024

Mining Review 25th August 2024

Gold hit another new (nominal) all-time high during the week.

Aris Mining, Calibre Mining, and Westgold announced positive drill results.

City Investors Circle Mining Review 25th August 2024

Gold hit another new (nominal) all-time high during the week, and ended above the critical \$2500 level after Jay Powell suggested strongly that US rate cuts are imminent, sending bullion and stocks upwards in anticipation.

Aris Mining, **Calibre Mining**, and **Westgold** announced positive drill results in a week devoid of any real exciting news. This is the drilling season of course so we expect more excitement in the autumn as summer drill results are released.

Westgold, which acquired Karora Resources a few weeks ago, announced their first set of drill results from Beta Hunt as a combined company, and they didn't disappoint.

American Creek, itself the subject of an acquisition, also announced drill results announced by JV partner **Tudor Gold**, at

the Treaty Creek project in the Golden Triangle of British Columbia.

All the week's news stories are listed below, please click the link to read the full story.

ARIS MINING ANNOUNCES HIGH GRADE DRILL RESULTS FROM ONGOING SEGOVIA OPERATIONS EXPLORATION PROGRAM

Vancouver, Canada, August 12, 2024 – **Aris Mining Corporation** (Aris Mining or the Company) (**TSX: ARIS; NYSE-A: ARMN**) announces the results received to date from its ongoing 2024 exploration drilling program at its Segovia Operations in Colombia, which is now 70% complete.

Neil Woodyer, CEO of Aris Mining, commented

“Our drilling program continues to deliver high grade intersections, confirming the continuity and extension of the large scale veins at depth and along strike, and supporting Segovia’s status as one of the highest grade gold operations in the world.

“The identification of new, near mine mineral resources are expected to progressively lengthen the currently defined mine life, and to provide future low development cost mill feed to supplement the processing plant expansion currently underway.

“We are especially excited by the results of our ongoing data verification and new drilling programs at Cristales, which are expected to result in significant additions to inferred mineral resources and have the potential to connect the Cristales vein with the substantial vein systems at El Silencio”.

Exploration Program

The intersections provided in this news release include results received since the Company's previous exploration news release dated August 16, 2023, which had a data cut-off date of July 31, 2023, up to validated sample assays available as of April 1, 2024.

These results are expected to be included in the Company's updated mineral resource and reserve estimates expected in the fourth quarter of 2024.

The Segovia vein system is extensive, with three of the four operating mines following relatively flat lying vein systems ranging between 1.5 and 2.8 kilometres (km) along strike.

Aris Mining H1 2024 Production, Reaffirms 2024 Guidance

Aris Mining (TSX: ARIS)

Announced gold production of 99,983 ounces for H1 2024, with 88,613 ounces from Segovia and 11,370 ounces from the Marmato Upper Mine.

As the Segovia mine plan progresses to higher-grade zones the Company is on track to meet the lower end of its full-year production guidance of 220,000 to 240,000 ounces.

ARIS MINING REPORTS H1 2024 PRODUCTION, PROVIDES EXPANSION PROJECTS UPDATE AND REAFFIRMS FULL YEAR 2024 GUIDANCE

[Download](#)

VANCOUVER, BC ,July 16, 2024 /PRNewswire/ – **Aris Mining Corporation** (Aris Mining or the Company) (**TSX: ARIS**) (NYSE-A: **ARMN**) announces gold production of 99,983 ounces for the first half of 2024 (H1 2024), with 88,613 ounces from Segovia and 11,370 ounces from the Marmato Upper Mine.

In the same period in 2023, the Company produced 104,906 ounces of gold, including 94,395 ounces from Segovia and 10,511 ounces from the Marmato Upper Mine.

As the Segovia mine plan progresses to higher-grade zones the Company is on track to meet the lower end of its full-year production guidance of 220,000 to 240,000 ounces.

**Neil Woodyer, CEO of Aris Mining,
commented**

“Our Segovia processing facilities performed well during Q2, consistently achieving over 2,000 tonnes per day (tpd) of throughput. As previously disclosed, the Segovia Operations were moving through relatively low-grade zones in the production schedule, and higher-grade zones are now being mined.

“During the second quarter we made meaningful progress with our expansion projects at Segovia and Marmato. Aris Mining continues to target an annual production run-rate of approximately 500,000 ounces of gold by the second half of 2026 once the expansion projects are complete.

“At Segovia, expansion of the processing plant will increase throughput capacity by 50% from 2,000 tpd to 3,000 tpd, enabling the mine to produce 300,000 ounces of gold annually.

“We are on track for construction completion in early 2025, followed by a ramp-up period. Our updated capital cost estimate for the project is \$15 million, resulting in an excellent return on invested capital.

“At Marmato, as at the end of May 2024, we have spent \$30 million out of the \$280 million construction budget for the Lower Mine. Of the remaining \$250 million, \$122 million will be funded by stream financing.

“The stream financing is subject to capital expenditure milestones defined as 25%, which is expected to be achieved in the third quarter of this year, 50% and 75% of projected

completion, with \$40 million in funding occurring following achievement of each of the first two milestones and \$42 million on achievement of the last.

“The Lower Mine project is on track for first gold pour by the end of 2025, followed by an approximate six-month ramp-up period as per prior guidance.

“In addition to the Lower Mine construction progress, we are transforming the Upper Mine production plan by transitioning the operation of the Upper Mine to contract mining partners (CMP), which mirrors our successful operating model at Segovia.

“At Soto Norte, we now own 51% of the project following successful completion at the end of June 2024 of our previously announced transaction to acquire an additional 31% of the project.

“Since closing, we have been focused on integrating the administration and management of Soto Norte into the Aris Mining structure. Feasibility level studies are underway on a new, smaller scale development plan, and results are expected in early 2025.

“We are excited about the transformational near-term growth we will deliver over the next two years through the Segovia and Marmato expansions, while progressing Soto Norte to unlock our next growth project for 2027 and beyond.”

Q2 2024 Financial Results

Aris Mining will announce its full Q2 2024 financial results after market close on Tuesday, August 13, 2024. Management will host a conference call on Wednesday, August 14, 2024, at 9:00 am ET / 6:00 am PT to discuss those financial results.

The call will be webcast and can be accessed at Aris Mining's website at [Home](#), or at [Webcast | Q2 2024 Results Conference Call \(choruscall.com\)](#).

Monthly Review for May 2024

Published

[Monthly Review May 2024](#)

Has been published by City Investors Circle.

The highlighted company is Ora Banda Mining, and featured companies include Aris Mining and Karora Resources, plus a potential takeover target in Australia.

G Mining's TZ project vista, Tapajos, Brazil.

[City Investors Circle Monthly Review May 2024](#)

The highlighted company is **Ora Banda Mining**, in production in Western Australia, looking to increase gold production from 70,000 Oz PA to 100,000 Oz PA in 2025.

Ora banda has a 110 KM trend with a “string of pearls” of targets, and are looking to pivot to underground mining for higher grades and lower costs.

AISC is around A\$2,400, and the gold price in Australia is currently A\$3,550, so plenty of cashflow to expand exploration and develop their other projects.

--

Other featured companies include **Aris Mining** and **Karora Resources**, plus a potential takeover target rumour from Australia.

--

Precious and industrial metal prices in May were virtually all positive, and we list the gainers and very few losers monthly changes.

Mining Review 26th May 2024

Mining Review 26th May 2024

Gold Road Resources is the subject of some bid rumour speculation in Australia, with Gruyere JV partner Gold Fields' name being mentioned amongst others.

Aris Mining now owns 51% of Soto Norte in Colombia, Impact Minerals reported they are financed to complete the Lake Hope pre-feasibility study, and West Red lake Gold Mines reported more decent gold intercepts.

City Investors Circle Mining Review 26th May 2024

Another week on the roller coaster ride that constitutes the markets these days, with **precious metals** taking a fall after their recent strong run, once again because of doubts of any US rate cuts this year, and even the odd rumour that rates may have to rise!

Silver was down nearly 4%, and **gold** nearly 3% as a result, with **platinum** and **palladium** also being hammered. The precious metal ETFs took a real pummelling, down around 4% on average.

Base metals are going in the opposite direction as markets are turning positive about the Chinese economy again, despite plenty of evidence their real estate market is in turmoil and requiring urgent government support, see [HERE](#).

Iron ore lead the way with a 5% rise, with **nickel**, **copper**, and **zinc** all healthily up.

Where will we be next week I wonder? I'm surprised the Biden camp haven't tried to force the FED to reduce rates given the forthcoming election and their poor rating in the polls.

Zimbabwe has introduced a gold backed currency, the **ZIG**, where all the currency issued will be backed by gold reserves.

The IMF have now endorsed the ZIG, see [HERE](#)

Gold Road Resources is the subject of some bid rumour speculation in Australia, with Gruyere JV partner **Gold Fields** name being mentioned amongst others.

West Red Lake Gold Mines reported more decent gold intercepts, and **Impact Minerals** reported they are financed to complete the Lake Hope pre-feasibility study.

I bought a small initial investment in **Impact Minerals** this week as I'm impressed by the steady progress they're making as a company, and in particular the Lake Hope HPA project, that really does look exciting, and, if it realises its potential, would be a company maker.

VANCOUVER, BC , May 23, 2024 /PRNewswire/ – **Aris Mining Corporation (Aris Mining or the Company) (TSX: ARIS) (NYSE-A: ARMN)** announces that it has entered into a binding agreement with MDC Industry Holding Company LLC (Mubadala), a wholly-owned subsidiary of the Abu Dhabi based investment company Mubadala Investment Company PJSC, whereby, subject to certain customary conditions, Aris Mining will acquire an additional 31% joint venture interest in the Soto Norte gold-copper project in Colombia (Soto Norte or PSN) and amend the current Joint Venture Agreement to account for this change in ownership.

Soto Norte is one of the largest undeveloped underground gold projects in South America , set to employ modern and sustainable mining practices.

- **Acquisition of 51% of PSN and Share Exchange** : Aris Mining will acquire an additional 31% joint venture interest in PSN from Mubadala, bringing its total ownership to 51%. In exchange, Aris Mining will issue 15,750,000 shares to Mubadala, representing an approximate 9.9% ownership stake based on Aris Mining's issued and outstanding shares as of March 31, 2024 , with an additional 6,000,000 shares to be issued on receipt of an environmental license for PSN.
- **New, Smaller-Scale Development Plan**: Aris Mining has completed optimization studies of a smaller, more efficient development plan for PSN. Key changes include reducing the environmental footprint, building a smaller processing plant with a longer operating life, adopting a flexible mining method to target higher-grade material earlier in the mine life, and installing a paste backfill plant to minimize surface tailings storage requirements.
- **Strategic and Operational Benefits**: With a 51% controlling interest, Aris Mining will integrate the PSN

development team into its management structure and procedures, enhancing operational efficiencies and creating synergies.

Aris Mining CEO Neil Woodyer stated:

“As the only mining company with operational experience to own and operate Soto Norte, we believe a new, smaller-scale development plan with a reduced environmental footprint is the right path forward.

“Aris Mining also plans to incorporate processing solutions for contract mining partners into the design and development of Soto Norte, following the successful partnership model developed at our Segovia Operations in Colombia .

“Based on the attractive results of our preliminary work, we are initiating a Pre-Feasibility Study (PFS) of the new development plan, which is expected to be complete by early 2025.

In support of this plan, we are delighted to become the 51% controlling shareholder of the Soto Norte joint venture at closing, enabling Aris Mining to develop this very attractive

project.”

ARIS MINING REPORTS Q1 2024 RESULTS WITH SEGOVIA GENERATING \$13.8 MILLION IN OPERATING CASH FLOW

PR Newswire

VANCOUVER, BC, May 14, 2024 / PRNewswire / – **Aris Mining Corporation (Aris Mining or the Company) (TSX: ARIS) (NYSE-A: ARMN)** announces its full financial and operating results for the three months ended March 31, 2024 (Q1 2024).

Aris Mining previously released Q1 2024 production results and announced that it is on track to deliver full-year 2024 guidance while its expansion projects advance in a news release dated April 15, 2024.

All amounts are in US dollars unless otherwise indicated.

	Q1 2024
Gold production (Segovia & Marmato)	50,768 ounces
Segovia Operations All-in Sustaining Cost per Ounce Sold (AISC/oz) ¹	\$1,434
EBITDA ¹	\$22.4M
Adjusted EBITDA ¹	\$28.4M
Net earnings (loss)	\$(0.7)M or \$(0.01)/share
Adjusted earnings ¹	\$5.4M or \$0.04/share
Number of common shares outstanding May 14, 2024	152.2M

Aris Mining CEO Neil Woodyer stated:

“During Q1, our high-grade Segovia Operations produced 44,909 ounces of gold at a processed grade of 9.42 g/t, which was in-line with our mine plan for the quarter.

“As we announced in April, our operations are on-track to achieve full year 2024 production guidance of 220,000 to 240,000 ounces. AISC per ounce¹ at Segovia of \$1,434 were also in-line with budgeted expectations.

“During Q1, the Segovia Operations generated \$13.8 million in cash flow from operations¹ before expansion capital and taxes.

“We invested \$37.4 million in our projects and mines, and we ended the quarter with a cash position of \$147 million.

“Both of our expansion projects progressed well during the quarter. At Segovia, the mill expansion from 2,000 to 3,000 tonnes per day has advanced with completion of mill sizing optimization studies, civil works for the relocated CMP mill feed receiving area are 85% complete, major equipment orders have been placed, and geotechnical test work for the mill and silo foundations are complete.

“At the Marmato Lower Mine, most of the mechanical equipment has been ordered, including the crushers, ball and SAG mills, gravity concentrators, thickeners, and filter presses.

“The access road has reached the portal level, which allows the portal contractor access to their work area, and the second phase of the contract for the decline development has been submitted to a third-party review and will be awarded soon.”

Market Review for April 2024 Published

Market Review April 2024

Featured new watchlist company Aris Mining, a gold producer based in Colombia with a plan to increase production to 500,000 Oz PA.

Three watchlist companies became involved in M & A activity, G Mining Ventures, Gold Road, and Karora Resources.

City Investors Circle Market Review April 2024

City Investors Circle Market Review April 2024 featured new watchlist company **Aris Mining**, a gold producer based in Colombia with a plan to increase production to 500,000 Oz PA.

Three watchlist companies became involved in M & A activity, **G Mining Ventures**, **Gold Road Resources**, and **Karora Resources**.

Gold Road bid for 40% of the new **Greenstone Gold Mine** in Canada, but then withdrew, and the 60% owner, **Equinox Gold**, stepped in and took the remaining 40% to become 100% owners of the mine.

G Mining Ventures is acquiring **Reunion Gold** based in Guyana, in the same shield as their Brazilian TZ mine, and a shield where they have experience of constructing four mines already.

This looks a good and logical fit in my opinion.

Karora Resources is being acquired by Western Australia based **Westgold**, to become a focused gold producer in WA, with substantial reserves and resources, and around a 400,000 Oz gold PA production.

This looks a good fit, but I am disappointed because I envisaged Karora becoming an acquirer, rather than being acquired.

Westgold also plan to dual list on the TSX.
