Avino Silver Announces Q3 2026 Production Results

Avino Silver & Gold Mines (TSX / NYSE: ASM)

Reported third quarter 2026 production results of 303,189 silver ounces, 1,732 gold oz and 1.1 million pounds of copper, for a total of 582,836 silver equivalent oz.

Q3 2026 represented another important period of progress for Avino, highlighted by the increasing contribution from La Preciosa and a 15% increase in silver production.

AVINO ANNOUNCES Q3 2026 PRODUCTION RESULTS

Avino Silver & Gold Mines Ltd. (ASM: TSX/NYSE American, GV6: FSE) a long-standing silver producer in Mexico, reports third quarter 2026 production results of 303,189 silver ounces ("oz"), 1,732 gold oz and 1.1 million pounds of copper ("lbs"), for a total of 582,836 silver equivalent[1] ("AgEq[1]") oz.

David Wolfin, President and Chief Executive Officer said,

“The third quarter of 2026 represented another important period of progress for Avino, highlighted by the increasing contribution from La Preciosa and a 15% increase in silver production.

“Mill performance remained solid during the quarter, with tonnes milled continuing to exceed expectations, and contributions from La Preciosa development ore continued to increase as the project advanced.

“This growing contribution demonstrates the progress we are making at La Preciosa, with development mining rates and mill throughput reaching above 450 tonnes per day during the third quarter.

“We remain focused on optimizing La Preciosa for future production growth as the project is a key pillar in our transformational growth targets.”

PRODUCTION HIGHLIGHTS – Q3 2026

- **Steady Progress at La Preciosa**: As of the end of Q3 2026, over 3,000 metres of development has been completed at La Preciosa as we prepare for future production mining at both La Gloria and Abundancia veins

as the Company has added additional equipment to improve development rates in previous quarters.

- **Primary Silver Production**: Avino produced 303,189 silver ounces, representing over 50% of our silver equivalent[1] production for Q3 2026, as the Company continues to transition to its long-term target of 75% of consolidated silver equivalent[1] production coming from silver ounces.
- **Increased La Preciosa Development Production**: Avino produced 582,836 silver equivalent[1] ounces in Q3 2026, up slightly from Q3 2025 on a consolidated basis. At La Preciosa, development production output increased 5% from Q2 2026, contributing 105,867 AgEq[1] ounces, and consisting of 91,411 silver oz and 166 gold oz. Mill processing of mineralized development material from La Preciosa was above plan for 2026 to date, primarily due to Mill Circuit 2 becoming available for La Preciosa development ore in the second quarter, ahead of schedule. Grades were below plan as elevated silver prices supported the processing of additional lower-grade development ore.
- **Consistent Mill Throughput:** In Q3 2026, mill throughput remained on plan with 190,379 tonnes processed from both Avino and La Preciosa. Continued steady mill performance and availability reflects the impact of targeted upgrades and automation initiatives led by our operations and maintenance teams over recent years.

AVINO REPORTS Q2 2026 FINANCIAL RESULTS

Avino Silver & Gold Mines Ltd. (ASM: TSX / NYSE American; FSE:

GV6) a long-standing silver producer in Mexico, announces its unaudited condensed interim consolidated financial results for the second quarter of 2026. All amounts are in U.S. dollars unless stated otherwise.

Second Quarter 2026 Financial Highlights

- **Revenues**: The Company achieved $26.8 million in revenues for Q2 2026, an increase of 23% from Q2 2025. 54% of revenues were derived from silver production at an average realized price of $68.90 per ounce.
- **Mine Operating Income**: Mine operating income was $13.0 million, an increase of 27% from Q2 2025.
- **Net Income:** Earnings, or net income after taxes, was $10.9 million, or $0.06 per diluted share, an increase of 281% and 200%, respectively, from Q2 2025.
- **Earnings Before Interest, Taxes, Depreciation and Amortization ("EBITDA")[3] and Adjusted Earnings[3]:** EBITDA was $12.6 million, an increase of 69% from Q2 2025. Adjusted earnings were $11.1 million, or $0.06 per share, an increase of 26% and unchanged, respectively, from Q2 2025.
- **Strong Cash Provided by Operating Activities and Operating Cash Before Working Capital Adjustments[3]:** Cash provided by operating activities was $13.3 million, an increase of 59% from Q2 2025. The Company generated operating cash before working capital adjustments of $8.3 million, an increase of 32% compared to Q2 2025.
- **Mine Operating Cash Flow Before Taxes**: Mine operating cash flows before taxes was $14.4 million, an increase of 28% from Q2 2025.

David Wolfin, President and CEO said,

“During the second quarter, the Company continued its main focus of advancing La Preciosa while free cash flow from Avino further adds to the balance sheet quarter after quarter.

”With La Preciosa development material doubling in mine and mill throughput during the quarter, our transformational growth plan toward becoming a Mexico-focused mid-tier primary silver producer remains on track, and we continue working on delivering long-term value for our shareholders.”

City Investors Circle Mining Review 26th July 2026

Avino Silver, New Murchison Gold, and Westgold posted quarterly results.

Cabral Gold and Lahontan announced good drill results.

+++++++

It was another turbulent week in the markets, particularly mining stocks and commodities, as Trump’s war on Iran swayed to and fro from total annihilation of the population to peace talks, on a daily basis.

It’s nigh on impossible to time an entry at the moment so I just take a long term view and ignore the noise.

I traded a little with my Pacgold sale funds, adding to my position in Equinox Gold as it simply looks too cheap in my opinion. I am taking a long term view based on a premier management team that has been successful in creating shareholder value over a number of companies.

Avino Silver Announces Q2 2026 Production Results

Avino Silver & Gold Mines (TSX: ASM)

Reported Q2 2026 production results of 267,305 silver ounces , 2,178 gold oz, and 729,929 pounds of copper, for a total of 534,945 silver equivalent oz.

Q2 2026 represented a meaningful increase in contribution from La Preciosa with a 59% increase in silver production.

AVINO ANNOUNCES Q2 2026 PRODUCTION RESULTS

Avino Silver & Gold Mines Ltd. (ASM: TSX/NYSE American, GV6: FSE) a long-standing silver producer in Mexico, reports second quarter 2026 production results of 267,305 silver ounces ("oz"), 2,178 gold oz and 729,929 pounds of copper ("lbs"), for a total of 534,945 silver equivalent[1] ("AgEq[1]") oz.

David Wolfin, President and Chief Executive Officer of Avino Silver said,

"The second quarter of 2026 represented a meaningful increase in contribution from La Preciosa with a 59% increase in silver production, as we continue to move the project forward.

“Mill performance remained solid during the quarter, with tonnes milled exceeding expectations and contributions from La Preciosa development ore continued to increase throughout the quarter.

“We will continue to optimize performance across our operations to advance our transformational growth plans.

“As noted previously and as La Preciosa advances, we expect that total 2026 production will be more heavily weighted to the second half of 2026.”

PRODUCTION HIGHLIGHTS – Q2 2026

- **Steady Progress at La Preciosa:** Ongoing extraction, haulage, and processing of mineralized development material from La Preciosa was above plan in Q2 2026, primarily due to Mill Circuit 2 becoming available. This increased throughput was offset by intentional processing of lower-grade development ore during elevated metal prices, that would have otherwise been stockpiled.
- **Increased La Preciosa Development Production:** Avino produced 534,945 silver equivalent[1] ounces in Q2 2026, a decrease from Q2 2025, and was a result of lower copper

production. The decrease reflects planned mining sequencing into lower copper grade areas near the historical open pit operations at Avino. At La Preciosa, development production increased 59% from Q1 2026, contributing 100,658 AgEq[1] ounces, and consisting of 84,806 silver oz and 182 gold oz.

- **Consistent Mill Throughput:** In Q2 2026, mill throughput remained on plan with 184,293 tonnes processed from both Avino and La Preciosa. Continued steady mill performance and availability reflects the impact of targeted upgrades and automation initiatives led by our operations and maintenance teams over recent years.
