*“Results continue to confirm that the Cove deposit is one of North America’s highest-grade gold deposits.*

*“These results, when combined with previously released results, highlight Cove as a Tier 1 Nevada deposit. Mineralization remains open for expansion and significant exploration targets exist on the large land package.”*

To date, 40 holes have been completed (28 with results released) out of approximately 120 holes planned that will comprise more than 40,000 metres on approximate 30 metre centers in advance of an updated resource estimate and economic study.
