Equinox Gold Completes Sale of Brazil Operations for Total Cash Consideration of US\$1.015 Billion, Pays Down More than US\$800 Million of Debt With Net Debt Reduced to US\$150 Million

(All financial figures are in US dollars)

Equinox Gold Corp. (TSX: EQX, NYSE American: EQX) (“Equinox Gold” or the “Company”) completed the previously announced sale of its Aurizona Mine, RDM Mine and Bahia Complex located in Brazil (the “Brazil Operations”) to a subsidiary of the CMOC Group for total consideration of up to \$1.015 billion (the “Transaction”).

Equinox Gold received cash proceeds of \$900 million, before closing adjustments, and will receive a production linked contingent cash payment of up to \$115 million on January 23,

2027.

The Company will immediately fully repay its \$500 million Term Loan, pay \$300 million to extinguish the Sprott Loan and related obligations, and make a payment on its revolving credit facility.

This will reduce the Company's senior debt to approximately \$580 million (net debt¹ to approximately \$150 million) and significantly lower its interest expense.

Darren Hall, Chief Executive Officer of Equinox Gold, stated:

"Monetizing the Brazil Operations has streamlined our portfolio and transformed our balance sheet.

"Equinox Gold is now well established as a leading North America focused gold producer, with greater financial flexibility to self-fund high return, near term organic growth opportunities and consider capital return initiatives.

"Our development pipeline has the potential to add 450,000 to 550,000 ounces of incremental annual gold production in the coming years. With a strengthened balance sheet and 2026 consolidated gold production guidance of 700,000 to 800,000

ounces providing robust cash flow generation, we are well positioned to deliver stronger per-share value for our shareholders.”

The Transaction was completed through the sale of the issued and outstanding shares of certain non-Brazilian wholly owned subsidiaries of the Company that indirectly owned the Brazil Operations.

Equinox Gold Announces Agreement to Divest Non-Core Nevada Assets for US\$115 Million

[Download](#)

Equinox Gold Corp. (TSX: EQX) (NYSE American: EQX) (“Equinox Gold” or the “Company”) is pleased to announce the sale of its 100% interest in the Pan Mine, Gold Rock Project, and Illipah Project located in Nevada, USA (the “Nevada Assets”) to Minera Alamos Inc. (TSXV: MAI) for US\$115 million, payable on closing as:

- Cash consideration of US\$90 million; and
- Equity consideration worth US\$25 million in the form of Minera Alamos common shares, representing no more than 9.99% pro forma ownership on an issued and outstanding basis.

**Darren Hall, Chief Executive
Officer of Equinox Gold, commented:**

“The sale of our non-core Nevada Assets reflects our

commitment to portfolio optimization and disciplined capital allocation.

“This transaction simplifies our business and allows the team to focus our efforts and capital on core operations and key development opportunities, positioning Equinox Gold to drive greater shareholder returns.

“The US\$90 million in cash proceeds will strengthen our balance sheet, and the significant equity ownership will provide continued exposure to the upside within the Nevada Assets as well as to Minera Alamos’ existing high-quality portfolio.”

In the event the equity portion of the consideration represents more than a 9.99% interest in Minera Alamos, the cash payment to Equinox Gold will be increased such that Equinox Gold does not own more than 9.99% of Minera Alamos shares issued and outstanding at closing.

The transaction is expected to close in the fourth quarter of 2025, subject to receipt of all regulatory and stock exchange approvals and other customary closing conditions.
