City Investors Circle Mining Review January 2022

Has been published, including comments on copper, zinc, and tin, all of which are in short supply for a number of reasons.

The Review also features a new tier 1 watchlist of 11 stocks expected to generate positive news during the year. All are

either in production, or close to production and in construction, or a corporate event may be likely.

My preferred company is one that has a low capex, brings a project into production, and then grows organically using cashflow from production. The new tier 1 watchlist contains eight such companies out of eleven selections.

I am hopeful that all eleven will generate positive newsflow during 2022.
