The highlighted company is Heliostar Metals (TSX.V: HSTR).

City Investors Circle Market Review October 2025

City Investors Circle has published the Market Review for October 2025

The highlighted company is Heliostar Metals (TSX.V: HSTR).

After a volatile month for the price of gold, our Tier 1 watchlist companies rose an average of 3% with seven risers and one even out of ten companies. **Galiano Gold** was the highest riser, and we feature the significant news from

companies on our watchlists.

Both **Orla Mining** and **G Mining Ventures** reported strong production and revenue during their Q3 reporting period.

Additions to the watchlist Tier 2 are **Erdene Resource Development**, **Silver Storm Mining**, and **Western Gold Resources**.

Aris Mining was moved into the Tier 1 watchlist after performing well and growing production in Colombia.

i-80 Gold was deleted from the watchlists after not performing as I had hoped. **Minera Alamos** is under review for deletion for the same reason.

Almost all metal prices increased during October, despite the volatility. **Gold** and **silver** rose 6%, 8% in UK pounds sterling terms, after the pound fell v the US dollar. This is a good reason for having investments quoted in other currencies, given the current lack of faith in the Labour government.

Copper reached an all-time high price of \$5.15, and **tungsten** remains the metal that has increased in price the most in 2025 so far, up 95% year to date.

We feature top slicing or trimming from companies that have performed well but growth has slowed as they mature and investing in newer exciting companies that look to enter an exciting growth phase.

City Investors Circle Market Review 30th November 2024

This month's highlighted company is **G2 Goldfields**, whom I met at the SMI Conference in Zurich, after having met them before in London.

The attraction is the high-grade gold on their property, which abuts G Mining Venture's G4 property, in Guyana.

I feel there is a strong possibility of corporate action with G2, AngloGold have just taken a stake, and G Mining must be a candidate if a takeover battle ensues.

The Trump election victory ended **gold's** positive run and mining stocks have fallen back as a result.

The company watchlists had a poor month, with virtually all share prices falling from a month ago, although most have rallied and recovered some of the loss.

Only a few companies remained in positive territory, notably **Colonial Coal, Capricorn Metals,** and **UEC.**

Market Review for April 2024

Market Review April 2024

Featured new watchlist company Aris Mining, a gold producer based in Colombia with a plan to increase production to 500,000 Oz PA.

Three watchlist companies became involved in M & A activity, G Mining Ventures, Gold Road, and Karora Resources.

City Investors Circle Market Review April 2024

City Investors Circle Market Review April 2024 featured new watchlist company **Aris Mining**, a gold producer based in

Colombia with a plan to increase production to 500,000 Oz PA.

Three watchlist companies became involved in M & A activity, **G Mining Ventures**, **Gold Road Resources**, and **Karora Resources**.

Gold Road bid for 40% of the new **Greenstone Gold Mine** in Canada, but then withdrew, and the 60% owner, **Equinox Gold**, stepped in and took the remaining 40% to become 100% owners of the mine.

G Mining Ventures is acquiring **Reunion Gold** based in Guyana, in the same shield as their Brazilian TZ mine, and a shield where they have experience of constructing four mines already.

This looks a good and logical fit in my opinion.

Karora Resources is being acquired by Western Australia based **Westgold**, to become a focused gold producer in WA, with substantial reserves and resources, and around a 400,000 Oz gold PA production.

This looks a good fit, but I am disappointed because I envisaged Karora becoming an acquirer, rather than being acquired.

Westgold also plan to dual list on the TSX.

City Investors Circle Market Review for March 2024 Published

City Investors Circle – London

The Market Review for March 2024 has been published.

The company highlight features **Galiano Gold**, a gold production company located in Ghana, West Africa.

Watchlist companies reporting significant news in March were **Calidus Resources, Karora Resources, and Orla Mining.**

The main news is the rise in the price of gold during March, and the news that this has pushed up the price of producing miners, and in time this will flow through to the junior explorers when the producers are more fully valued.

The big hope is that investors become excited about the mining sector again and flock back, as trading volumes have been low, and the record price of gold may act as the long awaited catalyst to attract and excite investors once again.

The top performing stocks this month were **Galiano Gold** in the gold producers, and **Thesis Gold** in the exploration juniors.

As the year end approaches we make a couple of sales from our portfolio and some adjustments to our watchlists, to reflect delivery against expectations, and anticipated newsflow in the coming year.

There have been a couple of disappointments, and we name the companies coming into the watchlist to replace those leaving.

We are looking for vibrant companies with good management, in safe jurisdictions, well financed, and expecting plenty of newsflow.
