## Market Review 30th November Published

Mining Review 30th November Published

The highlighted company is G2 Goldfields.

The Trump election victory ended gold's positive run and mining stocks have fallen back as a result. The watchlists had a poor month. To read the review click <a href="here">here</a>

## City Investors Circle Market Review 30th November 2024

This month's highlighted company is **G2 Goldfields**, whom I met at the SMI Conference in Zurich, after having met them before in London.

The attraction is the high-grade gold on their property, which abuts G Mining Venture's G4 property, in Guyana.

I feel there is a strong possibility of corporate action with G2, AngloGold have just taken a stake, and G Mining must be a candidate if a takeover battle ensues.

The Trump election victory ended **gold's** positive run and mining stocks have fallen back as a result.

The company watchlists had a poor month, with virtually all share prices falling from a month ago, although most have rallied and recovered some of the loss.

Only a few companies remained in positive territory, notably Colonial Coal, Capricorn Metals, and UEC.

#### Market Review April 2024

Featured new watchlist company Aris Mining, a gold producer based in Colombia with a plan to increase production to 500,000 Oz PA.

Three watchlist companies became involved in M & A activity, G Mining Ventures, Gold Road, and Karora Resources.

City Investors Circle Market Review April 2024

City Investors Circle Market Review April 2024 featured new watchlist company Aris Mining, a gold producer based in

Colombia with a plan to increase production to 500,000 Oz PA.

Three watchlist companies became involved in M & A activity, G Mining Ventures, Gold Road Resources, and Karora Resources.

**Gold Road** bid for 40% of the new Greenstone Gold Mine in Canada, but then withdrew, and the 60% owner, Equinox Gold, stepped in and took the remaining 40% to become 100% owners of the mine.

**G Mining Ventures** is acquiring Reunion Gold based in Guyana, in the same shield as their Brazilian TZ mine, and a shield where they have experience of constructing four mines already.

This looks a good and logical fit in my opinion.

**Karora Resources** is being acquired by Western Australia based **Westgold**, to become a focused gold producer in WA, with substantial reserves and resources, and around a 400,000 Oz gold PA production.

This looks a good fit, but I am disappointed because I envisaged Karora becoming an acquirer, rather than being acquired.

Westgold also plan to dual list on the TSX.

Calidus Resources Warrawoona Mine Plant, WA

# City Investors Circle Market Review for March 2024 Published

The Market Review for March 2024 has been published.

The company highlight features **Galiano Gold**, a gold production company located in Ghana, West Africa.

Watchlist companies reporting significant news in March were Calidus Resources, Karora Resources, and Orla Mining.

The main news is the rise in the price of gold during March, and the news that this has pushed up the price of producing miners, and in time this will flow through to the junior explorers when the priducers are more fully valued.

The big hope is that investors become excited about the mining sector again and flock back, as trading volumes have been low, and the record price of gold may act as the long awaited catalyst to attract and excite investors once again.

The top performing stocks this month were **Galiano Gold** in the gold producers, and **Thesis Gold** in the exploration juniors.
