Copper Giant Identifies13 Targets Beyond the Mocoa Resource

Copper Giant Resources (TSX.V: CGNT)

Reported the results of an independent geophysical modelling and predictive targeting study over its Mocoa copper-molybdenum porphyry project in Putumayo, Colombia.

The study covers an 81-square-kilometre area centered on the Mocoa deposit and defines 17 ranked target areas, 13 of them beyond the current resource footprint and its interpreted extensions.

Copper Giant Identifies Thirteen Targets Beyond the Mocoa Resource and Its Interpreted Extensions

Seventeen ranked areas within a 9-by-9-kilometre study strengthens the exploration case around the Company's billion-tonne inferred copper-molybdenum resource.

VANCOUVER, BC,Sept. 16, 2026/CNW/ – **Copper Giant Resources Corp.** (**"Copper Giant"** or the**"Company"**) **(TSXV: CGNT)** (OTCQX: CGNRF) (FRA: 29H0) today reports the results of an independent geophysical modelling and predictive targeting study completed by Mira Geoscience Ltd. (**"Mira"**) over its Mocoa copper-molybdenum porphyry project in Putumayo, Colombia.

The study covers an 81-square-kilometre area centered on the Mocoa deposit and defines 17 ranked target areas, 13 of them beyond the current resource footprint and its interpreted extensions. Drilling continues at La Estrella, and the Preliminary Economic Assessment **("PEA")** remains on plan for delivery in the fourth quarter of 2026.

.

Highlights

- **A billion-tonne deposit, and geology that supports looking beyond it:** Mocoa hosts an Inferred resources of 12.7 billion pounds (Blbs) copper-equivalent (CuEq*) at an average grade of 0.51% CuEq*, including 7.7 Blbs of copper at 0.31% Cu and 1.0 Blbs of molybdenum at 0.039% Mo, within 1.12 billion tonnes (Bt).
- Repeated mineralizing events over a fertile magmatic window of roughly ten million years, three high-grade cores (refer to news release dated October 7, 2025) and three drill-tested mineralized breccia corridors (refer to news release dated June 22, 2026), are consistent with more than one mineralized center.
- **Thirteen targets beyond the resource and its interpreted extensions:** two of the 17 ranked areas fall within or adjacent to the current resource footprint, two are interpreted extensions within 1.5 kilometres of it, and thirteen lie beyond (Figure 1, Table 1).
- **Five of the Company's 2022 targets corroborated:** the model outlined five of the nine exploration targets the Company defined in 2022 without being provided those target outlines (refer to news release dated May 3, 2022).
- **The strongest opportunity sits next to work already underway:** the two highest-ranked areas outside the resource footprint sit 433 metres northeast (G01) and 1,304 metres south-southwest of it (G04), on the Mocoa – La Estrella corridor where drilling is underway and coincide with copper and molybdenum anomalies in surface sampling. The corridor remains undrilled for 1.7

kilometres south of the last hole.

- **81 square kilometres studied, more than 128,300 hectares in the land package:** the same approach could be extended beyond it. The Company is evaluating options for a broader program in the Jurassic belt.

Edwin Naranjo Sierra, Vice-President of Exploration commented,

“Mocoa already holds more than one billion tonnes, and it sits in a belt that remains underexplored.

“This study is the first pass across the core of that belt on ground we control, and it gives us thirteen places to test beyond the resource, next to where we are drilling.”

City Investors Circle is based in the financial district in the City of London

We present interesting and exciting junior mining companies listed on the ASX and TSX stock exchanges to a group of city professionals, and private investors, all of whom are active investors with a mandate to invest in junior mining companies.

Our audience is selected and invited individually to ensure interest and relevance for the presenting company.

Meetings are non deal, small group, highly focused and engaged, with a lively Q and A to follow the main presentation.

We create awareness, and maintain interest in presenting companies by disseminating their future news to our entire investor group via email, social media, and our Monthly Review newsletter.

If you wish to present to our select group of active mining investors, please email andrew@city-investors-circle.com

=======

This website is not sponsored, we are truly independent, and will always remain so

Companies featured here have either presented to the Circle in London, or have been selected because they are considered to have interesting projects, in good jurisdictions, run by an experienced management team.

All information used in the preparation of this communication has been compiled from publicly available sources that we believe to be accurate and reliable, however, we cannot, and do not, guarantee the accuracy or completeness of this.

These articles are for awareness and informational purposes only, and are not recommendations in any form. Always consult an investment professional.
