City Investors Circle Monthly Review May 2024

The highlighted company is **Ora Banda Mining**, in production in Western Australia, looking to increase gold production from 70,000 Oz PA to 100,000 Oz PA in 2025.

Ora banda has a 110 KM trend with a “string of pearls” of targets, and are looking to pivot to underground mining for higher grades and lower costs.

AISC is around A\$2,400, and the gold price in Australia is currently A\$3,550, so plenty of cashflow to expand exploration and develop their other projects.

Other featured companies include **Aris Mining** and **Karora Resources**, plus a potential takeover target rumour from Australia.

Precious and industrial metal prices in May were virtually all positive, and we list the gainers and very few losers monthly changes.
