The Technical Report was prepared by Neal Reynolds, FAusIMM, MAIG and Matthew Field, Pr.Sci. Nat of CSA Global Consultants Canada Ltd.

The Technical Report has an effective date of May 5, 2023. The Technical Report is available on SEDAR at www.SEDAR.com and is posted on the Company's website at www.goldshoreresources.com.

In addition, further to its press release of May 17, 2023, Goldshore is working with Ausenco Engineering Canada Inc. ("**Ausenco**") as its lead engineering firm to conduct the preliminary economic assessment ("**PEA**") at the Moss Gold Project.

Goldshore's VP Exploration, Pete Flindell stated,

"Goldshore is reviewing high level scoping studies with Ausenco in order to identify the optimum project for the PEA.

"With high grade shears in low-grade altered wall rock, three viable process routes, and varying mining scales and rates, there are dozens of options that are being carefully evaluated, as the likely optimum project will be a staged hybrid rather than a simple mine-to-mill operation.

"We look forward to final PEA results in Q4 of this year."
