Meeka Pours First Gold at the Murchison on Schedule

Commissioning complete and ramp-up in gold production continues to progress smoothly at the Murchison Gold Project ("Murchison").

Meeka Metals (ASX :MEK) Announced the first gold pour on schedule at the Murchison Gold project in Western Australia.

The gold production ramp-up continues to run smoothly.

- First gold poured on schedule within 12 months of breaking ground at the Murchison.
- Gold production continues to ramp-up smoothly in line with schedule.
- Ore stocks continue to build in front of the processing plant as open pit mining ramps up following the arrival of the third dig fleet in June 2025.

Meeka's Managing Director Tim Davidson commented;

"It is an impressive achievement by the team to deliver first gold on time and within 12 months of breaking ground at the Murchison.

"We are now focussed on ramping up gold production toward our targeted 80koz per annum with the arrival of the third dig fleet and expanded open pit mining plan underway, and first ore from underground at Andy Well in the September 2025 quarter."

Westgold Announce Crown Prince Ore to Increase Production at Meekatharra

Perth, Western Australia, 12 December 2024: **Westgold Resources Limited (ASX/ TSX: WGX, OTCQX: WGXRF** – Westgold or the Company) is pleased to advise it has executed a gold ore purchase agreement (OPA or Agreement) between its subsidiary, Big Bell Gold Operations Pty Ltd, and Zeus Mining Pty Ltd, an entity owned by **New Murchison Gold Limited (ASX: NMG)**.

The OPA remains subject to NMG shareholder approval as Westgold owns 18.7% of NMG and is therefore deemed a related party under the ASX Listing Rules. NMG will seek the requisite approval from its shareholders at a general meeting which will

be called in January/February 2025.

Crown Prince, which is located 33kms by road from Westgold's 1.6-1.8Mtpa Bluebird processing plant, has a current JORC (2012) Indicated and Inferred Mineral Resource of 2.21Mt @ 3.9g/t Au for 279Koz Au (refer NMG ASX Release of 28 November 2024 for details).

Under the terms of the OPA, Westgold has agreed to purchase between 30,000 and 50,000 tonnes of gold ore per month from NMG's planned open pit operation at Crown Prince.

Subject to final regulatory permitting, NMG are targeting the commencement of open pit mining, and hence the OPA, in mid-2025. It is envisaged that most of the Crown Prince ore will be processed in the first two years of the Agreement (being FY26 and FY27), with potential ongoing terms to be agreed on a rolling, quarter-by-quarter basis following the two-year initial term.

Westgold Managing Director and CEO Wayne Bramwell commented:

"Westgold is delighted to have achieved a mutually beneficial outcome for both the New Murchison Gold and Westgold shareholders.

"This type of commercial arrangement is capital efficient for

both companies as it leverages the existing processing infrastructure Westgold has at Meekatharra.

“The introduction of softer oxide ore from Crown Prince in FY26 effectively increases throughput at the Westgold’s Bluebird plant – growing production and reducing our cost per ounce.

“At the same time, NMG realise value for its shareholders by unlocking a pathway to production for its Crown Prince deposit without the capital impost and execution risk of building a processing plant.

“As such this is a win-win for all shareholders and Westgold looks forward to working with New Murchison Gold in the development of the Crown Prince deposit.”
