

Murchison Gold Becomes Australia's Newest Gold Producer

New Murchison Gold (ASX: NMG)

Announced that the first gold bearing ore has been crushed, assayed, and stockpiled at Crown Prince Gold Mine.

The first 10kt parcel of product is being trucked to Westgold Resources' Bluebird gold processing facility 36km by road.

MURCHISON GOLD'S CROWN PRINCE GOLD MINE COMMENCES PRODUCTION

New Murchison Gold Limited (ASX:NMG) ("NMG" or the "Company") is pleased to announce that the first gold bearing ore has been crushed, assayed, and stockpiled at Crown Prince Gold Mine (Crown Prince).

The first 10kt parcel of product is being trucked to **Westgold Resources Limited's (ASX:WGX)** Bluebird gold processing facility 36km by road south of Crown Prince.

This major Company milestone sees the evolution of the Company into a gold producer following the decision to develop Crown Prince in late June 2025.

The Company issued its first Collection Notice for Crown Prince, in accordance with the Ore Purchase Agreement with Big Bell Gold Operations Pty Ltd (a Westgold subsidiary), triggering the Commencement Date in that Agreement.

The Company expects to ramp up to its target of 40,000 tonne of ore per month run rate during September / October.

Alex Passmore NMG's CEO commented:

"After executing the OPA in December 2024, the Company is very pleased to bring the Crown Prince Gold Mine into production at record Australian dollar gold prices and ahead of the 30 September 2025 Anticipated Commencement Date established in the OPA.

"We look forward to further growth from both Crown Prince Gold Mine and the Company's regional portfolio."

New Murchison Gold Report High-Grade Gold Hits Returned From Regional Exploration in The Abbotts Greenstone Belt

New Murchison Gold Limited (ASX: NMG) (“NMG” or the “Company”) is pleased to provide an update on results and interpretations from its recent regional exploration program.

This results in this announcement include high-grade gold intercepts outside of the Crown Prince Gold Mine currently under development.

The Abbotts Greenstone Belt contains historical gold workings dating back to the early 1900’s. Previous exploration has occurred sporadically over time at the various prospects along the belt.

NMG has consolidated ownership of the belt and has been re-evaluating, mapping and drilling using more modern techniques and leveraging off knowledge gained from its discoveries at the Crown Prince project.

HIGHLIGHTS

NMG has been undertaking regional exploration on its extensive 677km² exploration tenure which covers the majority of the Abbotts Greenstone Belt in the Murchison Region of Western

Australia.

The belt contains several large-scale gold prospects defined by broad gold anomalism up to 5km strike length in places.

Following its recent commencement of operations at the Crown Prince Gold Mine, the Company is advancing its pipeline of prospects within the belt.

Best intersections reported from drilling at regional prospects include:

- 20m @ 3.36g/t Au from 49m, including 1m @ 39.37g/t Au from 53m in NGGSRC984 (Airstrip)
- 5m @ 5.95g/t Au from 41m, including 1m @ 18.74g/t Au from 42m in NGGSRC1069 (Airstrip)
- 3m @ 8.50g/t Au from 18m, including 1m @ 23.08g/t Au from 19m in NGGSRC996 (Airstrip)

Alex Passmore, NMG's CEO, commented:

"We are very pleased to announce high grade results from relatively shallow depth from some of our key regional prospects, which offer strong potential for future growth.

"The Airstrip prospect shows a +5km long zone of gold anomalism (+1g/t Au) in shallow drilling and is located near the large Abernethy shear zone.

"Airstrip has the scale to deliver a transformational gold deposit for the Company.

“Lydia and Abbotts prospects sit on granted mining leases (MLs) and the Company is investigating these as potential future production locations.”

New Murchison Gold Knock Back Meeka Offer

New Murchison Gold (ASX: NMG) It has been reported in the Australian newspaper and on some social media platforms that New Murchison Gold has received an offer from Meeka Metals for all the shares in the company.

This does not surprise me as the deal looks to make sense, and now would be the time to make an offer before NMG gets production started and the shareprice moves upwards,

Whilst not yet confirmed it looks opportunistic and I hope NMG will turn down such an offer if it is received.

The Diggers and Dealers Conference starts today in Kalgoorlie, so we may hear more during the show.

New Murchison Gold June 2025 Quarter Activities Report

New Murchison Gold Limited (ASX:NMG) (“NMG” or the “Company”), a Western Australian gold exploration and development Company, is pleased to provide shareholders and investors with an exploration and operations overview to accompany the Appendix 5B for the quarter ending 30 June 2025 (“Quarter” or the “Reporting Period”).

New Murchison Gold has an Ore Purchase Agreement (OPA) with Westgold Resources Limited which will underpin production from NMG’s Crown Prince deposit near Meekatharra, Western Australia in 2025.

The Company is developing the Crown Prince Project (M51/886) part of NMG’s broader Garden Gully tenure package towards first gold production.

HIGHLIGHTS

Crown Prince Project Development

- Approvals Received – The Crown Prince Mining Proposal and Mine Closure Plan approvals were secured during the quarter.
- Development Decision – the Board of NMG resolved to proceed with project development which will see the Company transition from explorer to gold miner in the September quarter.
- Major Contracts Executed – Development, drilling, mining and site infrastructure contracts have been awarded to experienced contractors to ensure high quality, efficient delivery.
- Site Mobilisation and Operational Preparation – Critical equipment and workforce were mobilised to site late during the quarter commencing site establishment works and mining activity.
- First Blast Completed on 30 June 2025 – the first blast marks the official commencement of mining at Crown Prince.
- Timing of first gold-in-ore sales – Subsequent to quarter end, site establishment has continued at a rapid pace with the Company on track for first ore sales to Westgold's Bluebird Mill (BBG0) in September 2025.

Capital Raise

- In June 2025, the Company received firm commitments for a two-tranche equity placement of new shares to raise \$12 million at \$0.017 per share. Tranche 1 proceeds of \$8 million were received in early July with the remaining \$4 million subject to Shareholder approval at the General Meeting to be held on 15 August 2025.
- In conjunction with the placement, the Company launched a share purchase plan (SPP) (at the same price), to enable existing shareholders to participate.

Corporate

- Cash balance of \$14.5 million cash and is well funded to pursue ongoing technical programs and commercialisation options at Crown Prince.

NMG CEO, Alex Passmore commented;

“The June quarter was a pivotal period with the Company receiving key approvals and committing to a development decision for the Crown Prince Gold Mine.

“The completion of the first blast on 30 June 2025 is a huge milestone for the Company with mining commencing only a few days after mining approvals were received.

“We are on schedule for first ore deliveries to Westgold’s Bluebird mill in September.

“The Company looks forward to production of ore from the Crown Prince open pit shortly ahead of stockpiling, crushing and sampling. Production is set to ramp up from September.

“Outside of production preparation the Company pleasingly returned some very impressive exploration results during the quarter.

“The deeper drilling at Crown Prince indicates that the project is likely to continue past the open pit currently planned and the Company is shortly commencing its studies on an underground development.”

NEW MURCHISON GOLD HIGH-GRADE GOLD AT CROWN PRINCE

New Murchison Gold (ASX: NMG)

Announced additional high-grade gold intercepts from reverse circulation (RC) grade control drilling beneath the cap rock zone at the Crown Prince Gold Project at the Company's flagship Garden Gully Gold Project near Meekatharra, Western

Australia.

Crown Prince drilling – Courtesy of New Murchison Gold

	New Murchison Gold	ASX: NMG
	Stage	Development
	Metals	Gold
	Market cap	A\$157 million @ A\$0.16c
	Location	Murchison, Western Australia
	Website	www.newmurchgold.com.au

NEW MURCHISON GOLD ADDITIONAL HIGH-GRADE GOLD FROM THE REMAINING GRADE CONTROL DRILLING AT CROWN PRINCE GOLD PROJECT

New Murchison Gold Limited (ASX:NMG) (“NMG” or the “Company”) is pleased to announce additional high-grade gold intercepts from reverse circulation (RC) grade control drilling beneath the cap rock zone at the Crown Prince Gold Project (“Crown Prince”) (M51/886) at the Company’s flagship Garden Gully Gold

Project near Meekatharra, Western Australia.

Crown Prince is a high-grade gold deposit within NMG's Garden Gully Project located 22 kilometres northwest of Meekatharra in Western Australia via the Great Northern Highway and the Mt Clere Road (Figure 1).

The drilling was designed over the Crown Prince pit design area to a maximum depth of 83m and drilled northerly over the Main Zone and north-westerly over the South-Eastern Zone (SEB).

HIGHLIGHTS

High-grade gold assays in this announcement are mostly from the north-western part of the designed pit over the Main and Northern ore bodies (MOB and NOB) and sporadic parts of the South-Eastern Zone (SEB) which were rescheduled in the drilling campaign due to difficult access and ground conditions at the time.

Significant intersections include:

- 7m at 8.55g/t Au from 34m, including 1m at 40.68g/t Au from 37m in GC00500 from 31m
- 26m at 3.67g/t Au from 23m, including 2m at 42.3g/t Au from 46m in GC00511
- 20m at 15.09g/t Au from 42m, including 4m at 47.08g/t Au from 53m in GC00519
- 7m at 17.64g/t Au from 35m, including 2m at 48.65g/t Au from 39m in GC00524
- 8m at 12.89g/t Au from 45m, including 3m at 31.2g/t Au from 45m in GC00525

Assay results greater than 1g/t Au are included in Appendix 1. Pleasingly, this grade control drilling supports the continuity of the mineralised structures at Crown Prince and replicates the grades returned previously from resource drilling.

Alex Passmore, NMG's CEO, commented:

"We are pleased to finalise the grade control program over the 0 to 50m vertical depth over Crown Prince ahead of mining. Resource and grade control models are being updated.

"The grades reported demonstrate a strong finish to the program with better-than-expected results at MOB and NOB. Overall, the grade control program has indicated that there may be an out performance above base case forecast when mining is undertaken."

NEW MURCHISON GOLD GRADE CONTROL DRILLING CONFIRMS HIGH-GRADE 0-50M DEPTH ZONE AT CROWN PRINCE GOLD PROJECT

New Murchison Gold Limited (ASX:NMG) (“NMG” or the “Company”) is pleased to announce high-grade gold intercepts from reverse circulation (RC) grade control drilling beneath the cap rock zone at the Crown Prince Gold Project (“Crown Prince”) (M51/886) at the Company’s flagship Garden Gully Gold Project near Meekatharra, Western Australia.

Crown Prince is a high-grade gold deposit within New Murchison Gold’s Garden Gully Project it is located 22 kilometres north-west of Meekatharra in Western Australia via the Great Northern Highway and the Mt Clere Road.

HIGHLIGHTS

High-grade gold results returned from inclined grade control drilling targeting in-situ mineralisation under surface cap rock and in the saprolite zone.

This drilling covers early mining benches in the proposed open pit design at the Crown Prince Gold Project.

- Most of the high-grade gold assays received to date are displayed along the western part of the South-Eastern Zone (SEB) and above the Main Zone (MOB) of the Crown Prince ore body.

- **Significant intersections include:**

- 4m @ 40.98g/t Au from 25m in GC00217(MOB)
- 9m @ 9.16g/t Au from 40m in GC00252(SEB)
