Calidus Resources — Commissioning of Process Plant Successfully Completed,

Warrawoona Gold Project ramping up to nameplate production

Calidus Resources Limited (ASX:CAI) is pleased to announce its first gold pour from the Carbon in Leach (CIL) Circuit, marking the successful completion of commissioning of the full processing circuit at the Warrawoona Gold Project in WA. A total of 33kg of gold was poured.

The processing plant is fully operational and has achieved milling rates of 2.2M tpa with the full ramp up to 2.4M tpa expected to be completed this quarter.

Calidus Resources management comments

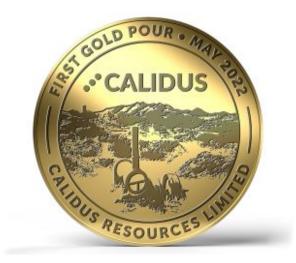

"Commissioning of our processing plant was highly successful and is a tribute to the skills of our team. We are increasing throughput and gold output with the aim of reaching full production rates this quarter.

"We wish to thank all Calidus personnel, who, with our key contractors GR Engineering Services Limited (ASX:GNG), Machmon Holdings Limited (ASX:MAH) and Assetlink Services Limited, have allowed us to deliver the Warrawoona Gold Project, on time and on budget.

"Over the remainder of the quarter, we will focus on our operational ramp up and other site activities including our active exploration programmes that have taken place during the course of development."
