## **WESDOME REPORTS SOLID FIRST QUARTER 2026 OPERATING RESULTS**

Toronto, Ontario – April 14, 2026 – **Wesdome Gold Mines Ltd.** (TSX: WDO, OTCQX: WDOFF) (“Wesdome” or the “Company”) today announces its operating results for the three months ended March 31, 2026 (“Q1 2026”).

The Company is also providing notice that it will release its financial results after markets close on Tuesday, May 12, 2026, and host a webcast the following morning.

## **Anthea Bath, President and Chief Executive Officer said,**

*“First quarter results were solid, in line with our expectations and on track for the full year,*

*“As planned, our 2026 production profile remains back-half weighted with 60% of Kiena’s annual production expected in the second half as we ramp to three mining areas, including 129, 136 and Presqu’île.*

*“Eagle River is anticipated to maintain consistent output throughout the year.*

*“In Q1, Eagle River demonstrated meaningful progress towards its fill-the-mill strategy, approaching nearly 800 tonnes per day – a 20% year-over-year increase – reflecting continued progress towards sustainable higher throughput levels and supporting our focus on leveraging fixed costs.*

*“The mine continues to operate consistently and safely with a focus on the areas of lateral development and maintenance. At Kiena, we’re seeing improvement.*

*Mining rates and throughput stabilized in the first quarter as concurrent stoping in Kiena Deep added operational flexibility.*

*“With the Presqu’île permit now secured, we’re advancing development of our newest mining area with the first stope beginning on schedule in late June – a key milestone that materially de-risks our second-half production profile. Mining grades at both Eagle River and Kiena tracked to reserve grade during the quarter.*

*“Grade at Eagle River was outside the 2026 guidance range as per our forecast due to the timing of mining sequencing. We remain confident in our full-year guidance as higher-grade zones are scheduled for the remainder of the year.*

*“Consistent with our capital allocation strategy, we deployed \$49 million to repurchase 2.1 million shares year-to-date, substantially completing our initial normal course issuer bid. We did so while advancing our organic growth initiatives and maintaining our balance sheet strength, with approximately \$430 million in cash at the end of the quarter.”*

# Orla Mining's Q1 Loss Disappoints the Market

## Orla Mining (TSX: OLA)

Published Q1 figures that disappointed the market as the Musselwhite costs increased the loss on a short term basis.

Record quarterly gold production of 47,759 ounces and total quarterly gold sold of 46,356 ounces at an AISC of \$850 for Camino Rojo only.

## First Quarter 2025 Highlights

- Record quarterly gold production of 47,759 ounces and total quarterly gold sold of 46,356 ounces (pre-released). First quarter all-in sustaining cost<sup>1</sup> ("AISC") was \$845 per ounce of gold sold (Camino Rojo operations only).
- Acquisition of Musselwhite completed; integration process advancing.
- Updated 2025 production and AISC guidance, inclusive of

Musselwhite, is 280,000 to 300,000 ounces of gold produced and \$1,300 to \$1,500 per ounce gold sold, respectively.<sup>2</sup> *With first quarter production and costs, Orla is currently on plan to achieve full year guidance.*

- Musselwhite investment of \$115.0 million of exploration and capital to enhance future growth profile.
- *Net loss for the first quarter was \$69.8 million or \$(0.22) per share, driven by the fair value adjustments on our financial instruments arising from the Musselwhite acquisition.*
- Adjusted earnings<sup>1</sup> for the first quarter were \$38.6 million or \$0.12 per share.
- Cash flow from operating activities before changes in non-cash working capital during the first quarter was \$401.2 million driven by the proceeds received from the gold prepayment<sup>3</sup>.
- Exploration and project expenditure<sup>1</sup> was \$15.8 million during the quarter, of which \$6.9 million was capitalized and \$8.9 million was expensed.
- *The Company ended the period with a cash balance of \$184.2 million and \$450 million in debt.*

**– Jason Simpson, President  
and Chief Executive Officer of Orla  
commented**

*“We are proud of the continued consistency from our team in Mexico where the Camino Rojo Mine remains a strong cash flow generator.*

*“This quarter also marked a major milestone with the closing of the Musselwhite acquisition, expanding our presence in Canada, and increasing our annual gold production guidance to 280 – 300 thousand ounces.*

*“Over the next two quarters, our focus will be on integrating Musselwhite, laying the foundation for long-term success. Over the next 24 months and beyond, we plan to invest significantly in exploration and provide our new team with the resources to reshape Musselwhite beyond 2030.*

*“Our next step of growth will be driven by our U.S. team, where we continue to advance the South Railroad Project in Nevada through permitting and toward construction.”*

**Wesdome      Reports      Q1      2024**

# Financial Results

## Wesdome Gold (TSX: WDO)

Announced its results for the three months ended March 31, 2024 (“Q1 2024”).

Consolidated gold production was 33,322 ounces at cash costs per Oz of US\$1,125) and AISC per ounce of US\$1,650.

# Wesdome Reports First Quarter 2024 Financial Results

TORONTO, May 08, 2024 (GLOBE NEWSWIRE) – **Wesdome Gold Mines Ltd. (TSX:WDO, OTCQX:WDOFF)** (“Wesdome” or the “Company”) today announced its results for the three months ended March 31, 2024 (“Q1 2024”). Preliminary operating results for Q1 2024 were disclosed on April 15, 2024.

*All amounts are expressed in Canadian dollars unless otherwise indicated.*

## Q1 2024 Highlights

- Consolidated gold production was 33,322 ounces at cash costs per ounce<sup>1</sup> of \$1,517 per ounce (US\$1,125) and all-in sustaining costs (“AISC”) per ounce<sup>1</sup> of \$2,226 (US\$1,650).
- Net income increased to \$10.7 million, or \$0.07 per share, an increase of \$11.1 million from the corresponding period in 2023.
- Cash margin<sup>1</sup> was \$46.6 million, representing a 36% increase relative to the prior year quarter mainly due

to a higher Canadian dollar realized gold price and increase in ounces sold.

- Operating cash flow was \$46.5 million, or \$0.31 per share<sup>1</sup>, \$41.4 million higher than the corresponding period in 2023 mainly due to the higher cash margin and an increase in cash from working capital changes.
- Free cash flow<sup>1</sup> of \$19.5 million was \$39.0 million higher than the corresponding period in 2023 mainly due to higher operating cash flow partially offset by an increase in capital expenditures.
- Available liquidity of \$169.5 million, including \$48.3 million in cash and \$121.2 million of undrawn availability under the Company's revolving credit facility.

## **Anthea Bath, President and CEO, commented:**

*"We delivered a solid first quarter on the back of higher-grade material at Eagle River, as a result of short-term positive grade reconciliation and mine sequencing relative to plan.*

*"As anticipated, in the second quarter we began processing higher grade material from Kiena Deep, which is expected to trend upwards over the balance of the year and thereby drive margin expansion.*

*"Exploration underpins our success, and we continue to*

*identify new opportunities across both mine sites to unlock value. This year's extensive exploration program is already yielding exciting results, including the intercept of high grades near mine infrastructure at Kiena Deep and continued growth in the recently discovered Falcon 311 and 300 zones.*

*"Our balance sheet continues to strengthen with meaningful improvements in both cash and total liquidity in the first quarter. We took advantage of increased cash flow in the quarter, reducing the amount outstanding on our revolving credit facility by \$10 million and putting us on track to repay the remaining balance by Q3.*

*"Results to date are aligned with our expectations and the team is focused on execution and delivering on full-year guidance and strategic objectives. We are well positioned to achieve higher production at declining unit costs with increased free cash flow in 2024."*

# ARIS MINING REPORTS Q1 2024 RESULTS WITH SEGOVIA GENERATING \$13.8 MILLION IN OPERATING CASH FLOW

PR Newswire

VANCOUVER, BC, May 14, 2024 / PRNewswire / – **Aris Mining Corporation (Aris Mining or the Company) (TSX: ARIS) (NYSE-A: ARMN)** announces its full financial and operating results for the three months ended March 31, 2024 (Q1 2024).

Aris Mining previously released Q1 2024 production results and announced that it is on track to deliver full-year 2024 guidance while its expansion projects advance in a news release dated April 15, 2024.

All amounts are in US dollars unless otherwise indicated.

	<b>Q1 2024</b>
Gold production (Segovia & Marmato)	50,768 ounces

Segovia Operations All-in Sustaining Cost per Ounce Sold (AISC/oz) <sup>1</sup>	\$1,434
EBITDA <sup>1</sup>	\$22.4M
Adjusted EBITDA <sup>1</sup>	\$28.4M
Net earnings (loss)	\$(0.7)M or \$(0.01)/share
Adjusted earnings <sup>1</sup>	\$5.4M or \$0.04/share
Number of common shares outstanding May 14, 2024	152.2M

**Aris Mining CEO Neil Woodyer stated:**

*“During Q1, our high-grade Segovia Operations produced 44,909 ounces of gold at a processed grade of 9.42 g/t, which was in-line with our mine plan for the quarter.*

*“As we announced in April, our operations are on-track to achieve full year 2024 production guidance of 220,000 to 240,000 ounces. AISC per ounce<sup>1</sup> at Segovia of \$1,434 were also in-line with budgeted expectations.*

*“During Q1, the Segovia Operations generated \$13.8 million in cash flow from operations<sup>1</sup> before expansion capital and taxes.*

*“We invested \$37.4 million in our projects and mines, and we*

ended the quarter with a cash position of \$147 million.

*“Both of our expansion projects progressed well during the quarter. At Segovia, the mill expansion from 2,000 to 3,000 tonnes per day has advanced with completion of mill sizing optimization studies, civil works for the relocated CMP mill feed receiving area are 85% complete, major equipment orders have been placed, and geotechnical test work for the mill and silo foundations are complete.*

*“At the Marmato Lower Mine, most of the mechanical equipment has been ordered, including the crushers, ball and SAG mills, gravity concentrators, thickeners, and filter presses.*

*“The access road has reached the portal level, which allows the portal contractor access to their work area, and the second phase of the contract for the decline development has been submitted to a third-party review and will be awarded soon.”*

# Karora Resources Q1 Results Hampered by Wet Weather

[Karora Resources Inc. \(TSX: KRR\)](#)

Announced consolidated gold production of 36,147 ounces and sales of 40,343 ounces for the first quarter of 2024.

Production was negatively impacted by wet weather during the quarter.

<b>Karora Resources</b>	<b>TSX: KRR</b>
<b>Stage</b>	<b>Production + Development + Exploration</b>
<b>Metals</b>	<b>Gold + Nickel</b>
<b>Market cap</b>	<b>C\$967 million @ C\$5.36</b>
<b>Location</b>	<b>Kalgoorlie, Western Australia</b>

## **Karora Announces First Quarter 2024 Gold Production Of 36,147 Ounces, Gold Sales Of 40,343 Ounces And Cash Position Of \$87.3 Million**

TORONTO, April 5, 2024/CNW/ – **Karora Resources Inc. (TSX: KRR)** (“Karora” or the “Corporation”) is pleased to announce consolidated gold production of 36,147 ounces and sales of 40,343 ounces for the first quarter of 2024.

*Production was negatively impacted by wet weather during the quarter and a regional interruption to grid power that impacted the Lakewood mill, affecting gold ounces produced.*

During the quarter, mobile crushing at Higginsville continued in lieu of primary crushing while the crusher bridge failure

was repaired. This repair was completed in late March with full primary crushing now restored.

Karora's unaudited consolidated cash balance as at March 31, 2024 was \$87.3 million, an increase of \$4.8 million compared to December 31, 2023.

## **Paul Andre Huet, Chairman & CEO, commented:**

*"Beta Hunt and Higginsville operations delivered within range despite two weeks of extreme wet weather conditions that impacted all producers in the region.*

*"Additionally, there was a regional two-week interruption to grid power that impacted the Lakewood mill resulting in approximately two weeks of processing being lost, with power subsequently restored.*

*"The Beta Hunt production ramp up remains on track and we are confident in our full year 2024 gold production guidance target of between 170,000 and 185,000 ounces and AISC cost target range of US\$1,250 and US\$1,375 per ounce sold.*

*"We are also very excited with the progress on advancing the development of an exploration drive towards the southern portion of the new Fletcher zone where we have reported very strong exploration drill results. The initial cuts into the*

*Fletcher zone are anticipated for the second half of the year.*

*“Our first quarter sales performance was boosted by shipment timing and strong gold prices resulting in an increase in our cash position of \$4.8 million to \$87.3 million at the end of the first quarter compared to December 31, 2023, continuing to strengthen our balance sheet.”*

# Orla Mining Reports Strong Start to Year in First Quarter 2023 Results

*Agnico Eagle Exercises Top-Up Right*

Vancouver, BC – May 11, 2023 – **Orla Mining Ltd. (TSX: OLA; NYSE: ORLA)** (“Orla” or the “Company”) today announces the results for the first quarter ended March 31, 2023 as well as the partial exercise by Agnico Eagle Mines Limited (“Agnico Eagle”) of its top-up right.

*(All amounts expressed in U.S. dollars unless otherwise stated)*

## First Quarter 2023 Highlights:

- During the first quarter, gold production was 25,910 ounces and gold sold was 26,859 ounces (*pre-released, April 14, 2023*). The Company remains on track to meet 2023 annual gold production guidance of 100,000 to 110,000 ounces.
- All-in sustaining costs (“AISC”)<sup>1</sup> of \$693 per ounce of gold sold during the first quarter 2023. The Company remains on track to meet 2023 annual AISC guidance of \$750 to \$850 /oz sold.

- Adjusted earnings<sup>1</sup> for the first quarter was \$11.4 million or \$0.04 per share.
- Net income for the first quarter was \$13.2 million or \$0.04 per share which included \$6.9 million in expensed exploration and development costs.
- Cash flow from operating activities before changes in non-cash working capital during the first quarter was \$nil after the Company made its first planned income tax payment (including the Special Mining Duty) in Mexico of \$26.5 million related to the 2022 fiscal year.
- Cash balance of \$83.8 million and net debt<sup>2</sup> of \$56.6 million at March 31, 2023.
- Subsequent to quarter end, Agnico Eagle partially exercised its top-up right.

**Jason Simpson, President and Chief Executive Officer of Orla Mining said;**

*“The Company transitioned seamlessly into 2023 with another consistent operating quarter with strong cash margins.*

*“We remain committed to all our stakeholders including our local communities and host governments.”*

Metals	Gold + Nickel
Market cap	C\$791 million @ C\$5.10
Location	Kalgoorlie, Western Australia

Karora Resources – Mining at Higginsville.

## **Karora Resources' Q1 2022 results significantly miss guidance due to covid 19**

TORONTO, May 12, 2022 /CNW/ – **Karora Resources Inc. (TSX: KRR) (OTCQX: KRRGF)** (“Karora” or the “Corporation”) is pleased to announce its financial results and review of activities for the three months ended March 31, 2022.

All amounts are expressed in Canadian dollars, unless otherwise noted. For additional information please refer to Karora’s Management’s Discussion & Analysis (“MD&A”) and unaudited condensed interim financial statements for the three months ended March 31, 2022 and 2021.

# Highlights

- First quarter 2022 consolidated gold production of 27,489 ounces was in line with the mine plan and budget despite a number of temporary challenging COVID-19 related conditions, including lower labour availability, higher absenteeism due to isolation requirements and supply chain constraints. *Karora remains on track to deliver on full year consolidated 2022 gold production guidance of 110,000 to 135,000 ounces* (assumes no significant interruption to operations as a result of the COVID-19 virus and improved operating conditions in the second half of 2022).
- *First quarter 2022 consolidated all-in-sustaining-costs (“AISC”)<sup>1</sup> of US\$1,396 per ounce sold is a 33% increase compared to first quarter 2021 AISC of US\$1,049 per ounce sold (34% increase compared to fourth quarter 2021 AISC of US\$1,042 per ounce sold).*
- *First quarter AISC was negatively impacted by a number of cost pressures, many of which are expected to be temporary in nature including those caused by material COVID-19 related labour and supply shortages in Western Australia which carried both direct and indirect costs. During the quarter, labour availability reached a low of approximately 60%, prompting the need for additional contract labour.* As a result of labour shortages, additional higher cost stockpile were processed at Higginsville. Absenteeism is expected to improve during the second quarter.
- *First quarter 2022 costs were also negatively impacted by the use of third party toll milling for approximately 15% of production during the first quarter to help offset the impact of Covid-19 related absenteeism at the Higginsville Mill, which added approximately US\$50 per*

*ounce to AISC*. In total, costs were negatively impacted by approximately US\$300 per ounce due to direct and indirect COVID related events. As with mining operations, absenteeism has improved during the second quarter. *Full-year 2022 cost guidance remains unchanged at a range of US\$950 to \$1,050 per ounce sold.*

- *Net loss of \$3.7 million, or \$0.02 per share, for the first quarter of 2022 was down \$9.3 million compared to first quarter 2021 net earnings of \$5.6 million, or \$0.04 per share. The first quarter net loss was largely due to third-party toll milling, higher operating costs in part due to more ounces from HGO which have a higher cost per ounce, and a number of temporary challenging COVID-19 related conditions, including lower labour availability, higher absenteeism, and supply chain constraints.*
- Adjusted earnings<sup>1</sup> of \$1.1 million, or \$0.01 per share for the first quarter of 2022, down \$7.0 million compared to first quarter 2021 adjusted net earnings of \$8.1 million, or \$0.06 per share.
- Adjusted EBITDA<sup>1</sup> was \$12.2 million or \$0.08 per share for the first quarter of 2022, down \$9.0 million from \$21.2 million in the first quarter of 2021, largely due to higher costs (including transitory costs related to COVID) and non-cash adjustments related to share-based payments, derivatives and foreign exchange related to intercompany loans.
- Cash flow from operating activities of \$12.2 million, or \$0.08 per share, a 35%, decrease compared to \$18.7 million for the first quarter of 2021.
- *Karora's cash position remained strong at \$78.1 million as at March 31, 2022, after planned capital deployment to prepare new mining areas at Higginsville, accelerated exploration programs and planned growth plan expenditures.*
- Karora released an updated Nickel Resource at Beta Hunt.

The Measured and Indicated Mineral Resource estimate, dated January 31, 2022, increased 22% to 19,600 nickel tonnes and Inferred Mineral Resource increased by 52% to 13,200 nickel tonnes ounces compared to the September 30, 2020 estimate.

- Karora published its inaugural Environmental Social and Governance (ESG) report in April 2022, which is available for download on Karora's website. The report was highlighted by Karora's achievement of becoming one of the first junior gold producers to achieve carbon neutrality in 2021 for Scope 1 and 2 at its own operations following the purchase and retirement of verified carbon offset credits.
- *In March 2022, Karora was added to the NYSE Arca Gold Miners Index (GDMNTR), which is tracked by the VanEck Vectors Gold Miners EFT (GDX).*
- Solid progress on key gold production growth plan initiatives:
  - Beta Hunt second decline portal box cut approximately 75% complete and decline development from underground has advanced approximately 300 metres.
  - Critical path items on schedule for the Higginsville Mill expansion from 1.6 Mtpa to 2.5 Mtpa are on schedule, including advanced engineering design and the awarding of the contract for the SAG mill.
- *Consolidated Measured and Indicated Gold Mineral Resource estimate dated January 31, 2022, increased by 8% to 2.71 million ounces, compared to the September the 30, 2020 estimate. The updated Consolidated Inferred Gold Mineral Resource increased 43% to 1.21 million ounces compared to the prior estimate.*
- *Gold mineralization in the Fletcher Shear Zone, the third major Beta Hunt Shear Zone, has been extended to over 500 metres along strike and 150 metres in vertical*

*extent and remains open along strike and at depth* (see Karora news release dated January 24, 2022).

- Gamma Block gold mineralization, proximal to the 50C nickel discovery, confirmed over a 200 metre strike length with new resulting including 7.6 g/t over 8.4 metres and 3.4 g/t over 33.6 metres (see Karora news release dated January 24, 2022).
- *Drilling at the high grade 50C nickel discovery which is part of the Gamma Block Nickel Mineral Resource (see Karora news release dated May 11, 2022) has confirmed significant nickel mineralization over 800 metres in strike with potential to extend a further 1.9 kilometres to 2.6 kilometres of strike.*

**City Investors Circle is based in the financial district in the City**

## of London

We present interesting and exciting junior mining companies listed on the ASX and TSX stock exchanges to a group of city professionals, and private investors, all of whom are active investors with a mandate to invest in junior mining companies.

Our audience is selected and invited individually to ensure interest and relevance for the presenting company.

Meetings are non deal, small group, highly focused and engaged, with a lively Q and A to follow the main presentation.

We create awareness, and maintain interest in presenting companies by disseminating their future news to our entire investor group via email, social media, and our Monthly Review newsletter.

If you wish to present to our select group of active mining investors, please email [andrew@city-investors-circle.com](mailto:andrew@city-investors-circle.com)

**Wesdome Gold Q1 Results in**

# Line with guidance

[Wesdome Gold Mines Ltd. \(TSX: WDO\)](#)

Announced first quarter 2022 production results.

Duncan Middlemiss, President and CEO, commented, “Wesdome’s first quarter combined production of 25,611 oz (up 14% from Q1 2021) was essentially in line with expectations” [...]

Wesdome Gold Mines – Eagle River underground mine

# Wesdome Announces 2022 First Quarter Production Results

TORONTO, April 14, 2022 – [Wesdome Gold Mines Ltd. \(TSX: WDO\)](#) (“Wesdome” or the “Company”) today announces first quarter (“Q1”) 2022 production results. All figures are in Canadian dollars unless otherwise stated.

## Wesdome Gold management comments

*“Wesdome’s first quarter combined production of 25,611 oz (up 14% from Q1 2021) was essentially in line with expectations and represents the low quarterly production for the year, as we made significant investments in the business during the quarter to set us up for a stronger second half at both assets.*

*“At Eagle, we will have additional ore available from the Falcon Zone, which is expected to boost both volume and grade.*

*“At Kiena, the ramp up has been impacted by unscheduled downtime related to the underground crusher. As well, some equipment delays and staff absences in the beginning of the year due to the outbreak of the Omicron variant impacted development, hence the lower grade in Q1.*

*“These challenges have largely been rectified, and commercial production is on track for mid year. This is a transformational year for Wesdome as Eagle continues its 100,000 plus ounce per year run rate, and as we begin to hit our stride with full commercial production at Kiena, getting that much closer to our stated objective of becoming Canada’s next intermediate gold producer.”*

Duncan Middlemiss, President and CEO, Wesdome Gold
