Westhaven Drills 17.61 g/t Gold Over 3.68 Metres, Including 27.6 g/t Gold Over 1.65 Metres; the Highest-Grade Gold Intercept Off Zone One Trend

Vancouver, B.C. – September 25th, 2023 – Westhaven Gold Corp. (TSX.V: WHN) is pleased to provide an exploration update on its 17,623-hectare Shovelnose gold property. Shovelnose is located within the prospective Spences Bridge Gold Belt

(SBGB), which borders the Coquihalla Highway 30 kilometres south of Merritt, British Columbia.

Highlights from the ongoing program include:

- MIK hole SN23-360 intersected 3.68 metres (m) of 17.61 g/t gold (Au) and 31.49 g/t silver (Ag), including 1.65m of 27.6 g/t Au. Five drill holes from MIK are pending assays.
- MIK hole SN23-362 intersected 2.44m of 3.43 g/t gold and 15.65 g/t silver, including 0.44m of 12.9 g/t Au and 73.2 g/t Ag.
- Drilling at the Hydrothermal Breccia 2 (HBX2) extended the known mineralization by 180m, intersecting 5.51m of 0.58 g/t Au and 0.49 g/t Ag, including 1.5 g/t Au over 1.0m.
- 23 silt samples collected have assays over 100 ppb gold (Au), including 1985 ppb Au, 1440 ppb Au, 871 ppb Au, 328 ppb Au, 282 ppb Au.
- Recent prospecting, approximately 3 kilometres (km) southeast of the South Zone (please see map below for location), has uncovered a showing of tuff containing fragments of hydrothermal quartz, within 150m of a gold soil anomaly. Grab sample assays are pending.

Gareth Thomas, President & CEO, states:

“Drilling the highest-grade gold intercept (17.61 g/t gold over 3.68 metres, including 27.6 g/t gold over 1.65 metres) off the main Zone One Trend that hosts all the major discoveries since late 2018 adds to our conviction that the large and underexplored Shovelnose Gold Property has a lot more discoveries to be made.

“Not only has this additional drilling improved our understanding of the MIK target area, but it has also opened up a highly prospective area that warrants further follow up drilling in the near term.

“Our technical team has been prospecting, mapping and sampling underexplored areas on Shovelnose where new showings have been discovered, including a hydrothermal outcrop approximately 3kms southeast of the South Zone along strike. We look forward to further defining these new targets with the goal to drill test them soon.”

Peter Fischl, Exploration Manager, states:

“Follow-up drilling of a historic drill hole intersection of 6.21 g/t Au over 0.4m (Hole 11-SH-03) at the MIK showing has now traced a north trending, moderately west dipping vein

zone, over a strike-length of 120m as present in all eight drill holes.

“The zone comes within 150m of Zone One Trend, and it remains open to the north and south. The gap between MIK and the Zone One Trend is now viewed as an area prospective for additional near surface vein-hosted gold mineralization.”

Westhaven Gold drills 14.96 meters of 5.69 g/t gold

Westhaven Gold (TSX.V: WHN)

Announce the drill results of his current drill campaign on its 100% owned by 17,623 hectares of Shovelnose Gold ownership.

Good drill intercepts included SN22-213 (38.22 meters 3.36 g/t gold and 11.48 g/t silver)

Westhaven Gold drill plan map April 2022, Shovelnose Mountain, British Columbia

Westhaven drills 14.96 meters

of 5.69 g/t gold and 343.57 g/t silver, including 8.50 meters of 8.69 g/t gold and 478.59 g/t silver in the FMN zone, Shovelnose Gold Property

VANCOUVER, British Columbia, June 06, 2022 (GLOBE NEWSWIRE) – **Westhaven Gold Corp. (TSX-V:WHN)** is pleased to announce the drill results of his current drill campaign on its 100% owned by 17,623 hectares of Shovelnose Gold ownership. Shovelnose is located in the future Spences Bridge Gold Belt (SBGB), which borders the Coquihalla Highway 30 kilometers south of Merritt, British Columbia.

Westhaven management comments

“Drilling continues to expand the high-quality FMN zone into the southern zone, which is approximately 2 kilometers to the southeast.

“Drill intercepts SN22-213 (38.22 meters 3.36 g/t gold and 11.48 g/t silver) and SN22-229 (14.96 m 5.69 g/t gold and 343.57 g/t silver) are respectively 40 meters and 80 meters along the strike of SN22-212 (23.03 meters of 37.24 g/t gold

and 209.52 g/t silver announced in April 2022), that is 240 meters along the strike of SN21-161 (15.97m of 9.15 g/t gold and 27.43 g/t silver announced in May 2021).

“Gat SN22-229 is the highest silver intercepting hole (5,140 gram meter AG) that has been drilled on the site of Shovelnose so far.

“There are hundreds of meters of largely untested stroke length in the FMN zone, both towards the south zone and towards the Franz zone. In addition to hosting Bonanza degrees, the FMN zone benefits from minimal overload with mineralization from the rock surface.”

Gareth Thomas, President & CEO, Westhaven Gold

Westhaven reports tests for 21 holes from its ongoing drilling campaign at Shovelnose.

Recent Drill Highlights:

- SN22-229 (FMN: 281.97-296.93m)
**14.96 meters (m) 5.69 g/t gold (Au) and 343.57 g/t silver (Ag),
including 8.50 m 8.69 g/t Au and 478.59 g/t Ag.**
- SN22-213 (FMN: 42.78-81.00m)
**38.22 m of 3.36 g/t Au and 11.48 g/t Ag,
including 1.34 m of 65.22 g/t Au and 199.11 g/t Ag,
including 0.64 m of 112.50 g/t Au and 333.00 g/t Ag.**
- SN22-214 (FMN: 11.72-34.00m)
**22.28 m of 1.19 g/t Au and 3.85 Ag,
including 6.09 m 2.71 g/t Au and 5.73 g/t Ag.**

Westhaven Gold drill plan map April 2022, Shovelnose Mountain, British Columbia.

Westhaven Gold Drills 23.03 Metres of 37.24 G/t Gold and 209.52 G/t Silver, Including 1.12 Metres of 294 G/t Gold and 2,110 G/t Silver at the FMN Zone, Shovelnose Gold Property

Vancouver, B.C. – April 6th, 2022 – **Westhaven Gold Corp.** (TSX.V: WHN) is pleased to announce drill results from its ongoing drill campaign at its 100% owned 17,623-hectare Shovelnose gold property.

Shovelnose is located within the prospective Spences Bridge Gold Belt (SBGB), which borders the Coquihalla Highway 30 kilometres south of Merritt, British Columbia.

Westhaven Gold management comments

“We are pleased to report the highest gold-silver intercept (857.64 gram-metres) ever drilled on the Shovelnose gold property, at the FMN Zone. Hole SN22-212 (23.03m of 37.24 g/t gold and 214.70 g/t silver) is over 2 kilometres from the heart of the South Zone resource.

“We now have multiple gold mineralized drill intercepts at the FMN zone over 500 metres of strike length that begin at bedrock surface in areas with minimal overburden. We believe the FMN zone has the potential to contribute significantly to the property wide precious metals inventory.

“It is not uncommon in enriched epithermal systems to discover multiple high-grade gold chutes and, given the strong nature of this system and low drill density in this area, we believe there is going to be more high-grade chutes discovered along this ~4-kilometre trend.

“In addition to the drill currently located at the FMN Zone, a second drill has been added at the Alpine Zone focused on following-up on Hole SNR21-55, which intersected 3.13 metres of 45.23 g/t gold and 195.64 g/t silver.

“Recent drilling at the Alpine Zone has encountered similar geology to what was encountered in SNR21-55, including intervals containing marcasite, adularia and ginguero.”

Gareth Thomas, President & CEO, Westhaven Gold

Westhaven is reporting assays for 22 holes from its ongoing drill

campaign at Shovelnose.

Recent Drilling Highlights:

- **SN22-212 (FMN: 93.94-116.97m)**

23.03 metres (m) of 37.24 g/t gold (Au) and 209.52 g/t silver (Ag),

including 1.12m of 294.00 g/t Au and 2,110 g/t Ag, **(79.66-93.94)**

14.28m of 2.07 g/t Au and 7.38 g/t Ag,

including 1.34m of 12.95 g/t Au and 34.40 g/t Ag.

(140.00-163.76)

23.76m of 1.45 g/t Au and 9.23 g/t Ag.

Westhaven Gold Halts Drilling at Shovelnose

Westhaven Gold (TSX.V: WHN)

Severe flooding has occurred in British Columbia, which effected the town of Merritt very badly.

Westhaven's Shovelnose property is located close to Merritt, and management have wisely temporarily suspended drilling operations to ensure the safety of staff.

Westhaven Gold Temporarily Halts Drilling On Shovelnose

Vancouver, B.C. – November 22nd, 2021 – **Westhaven Gold Corp. (TSX-V:WHN)** announces that drilling has been temporarily halted on its Shovelnose gold property due to the flooding situation in Merritt, B.C.

“Our thoughts are with the city of Merritt and the surrounding communities that have suffered devastating and unimaginable losses.

“As always, the safety and wellness of our staff, contractors and the local community is paramount. We are monitoring the situation closely and will resume operations when deemed safe.”

Gareth Thomas, President & CEO of Westhaven Gold

On behalf of the Board of Directors
