Mining Review 8th August 2026

Equinox Gold delivered strong Q2 financial and production results.

Benz Mining made a gold discovery at Icon and Silver Storm Mining reported high-grade silver drilling results at La Parilla.

++++++++

All in all it was a wonderful week for those invested in the mining and commodities sectors, with gold and silver powering ahead, and a strong rebound in the share prices of producing miners.

The junior explorers have yet to see a boost, but if the gold price remains strong that will come in the near future.

Mining Review 14th June 2026

Silver Storm Mining announced the first silver pour at its restarted La Parilla silver mine in Mexico.

The price of gold and other metals continued to fluctuate on the narrative of the Iranian and US governments.

City Investors Circle Mining Review 14th June 2026

Mining Review 14th June 2026 – Silver Storm Mining announced the first silver pour at its restarted La Parilla silver mine in Mexico.

Omai Gold continued to declare high-grade gold assays, and must surely be a strong contender for a bid sooner rather than later as it continues to stack up its mineral resource?

Silver Storm Celebrates First

Silver Pour at La Parilla

Silver Storm Mining (TSX.V: SVRS)

Announced the first silver-gold doré pour at the Company's 100%-owned La Parrilla Silver Mine Complex located in Durango State, Mexico.

The first pour was completed as part of the commissioning process of the oxide processing circuit at La Parrilla.

Silver Storm Conducts First Pour of Silver-Gold Doré at La Parrilla

Toronto, Ontario, June 11, 2026: Silver Storm Mining Ltd. ("Silver Storm" or the "Company") (TSX.V: SVRS | OTCQX: SVRSF | FSE: SVR) is pleased to announce the first silver-gold doré pour at the Company's 100%-owned La Parrilla Silver Mine Complex ("La Parrilla") located in Durango State, Mexico.

The first pour was completed as part of the commissioning process of the oxide processing circuit at La Parrilla.

The Company now expects to be able to pour silver-gold doré on an ongoing basis.

Silver Storm commenced the commissioning of the oxide processing circuit in early June utilizing mineralized material from the open-pit oxide stockpile.

The oxide circuit will continue to process the material from the oxide stockpile until underground development in the San Marcos area of the mine starts to provide access to run-of-mine mineralized oxide material.

Commissioning of the 1,250 tonnes per day sulphide processing circuit is expected to commence in June 2026 with an estimated ramp-up period of one month.

Greg McKenzie, President and CEO, stated,

> *“We are excited to reach this significant milestone less than three years after closing the acquisition of La Parrilla.*
>
> *“I extend my congratulations to the Silver Storm team for delivering first silver safely and successfully. With the first pour completed, we have kicked off the restart of operations at La Parrilla, starting a new chapter for the Company and its stakeholders.”*

121 Mining Conference London

121 Mining Conference London

London mining season kicked off with the 121 Mining Conference at Houndsditch this week.

Sadly the buzz that was evident at a recent presentation when gold was riding the crest of the wave seems to have evaporated, despite gold remaining above $4,000.

A typical scene from the meeting area at 121 Mining Conference in London

121 Mining Conference London – 2025

London mining season kicked off with the 121 mining conference at Houndsditch this week.

Sadly the buzz that was evident at a recent presentation when gold was riding the crest of the wave seems to have evaporated, despite gold remaining above $4,000.

This is despite gold remaining above $4,000, but below the heady $4,300 level. As a result producing gold and silver mining stock prices have been hit hard, blowing the exuberance away in the process.

I had some good meeting and do feel that stock prices are due another rise as long as gold holds around the current level or moves higher.

Of the companies that I met, **Dolly Varden, Lahontan Gold,** and **Silver Storm** caught my attention and merit further review.

I recently added **Silver Storm** to the Tier 2 watchlist of developing companies, due to its offtake deal with Samsung, low market cap, and imminent production in Q1 or Q2 2026.

Dolly Varden have a quality management team, and will publish a new Mineral Resource Estimate in Q1 2026. They are also looking for potential acquisitions.

Lahontan Gold is a small cap early stage exploration play with a past producing open pit gold project, Santa Fe, located in the Walker Lane Trend in Nevada. Run by Kimberley Ann, who has enjoyed success in the past with a number of exploration companies.

Lahontan have other former producing open pit projects in the same trend, including Santa Fe West, and Moho. In addition there is a disseminated silver project.

—-

The show itself, as I mentioned earlier, lacked the buzz I was expecting, due to prices having fallen back quite sharply from their highs despite gold being within 7% of its all-time high.

I noticed a few economy measures, such as no servers for the food, and the food selection had moved somewhat downmarket from previous shows.

My main complaint was the lack of seating given the wide open spaces in the concourse area. Surely they can provide a few more tables for people to sit and eat on?

All in all a good show, and I expect to make a couple of additions to my portfolio as a result of the meetings that I had.
