**SILVER TIGER INTERSECTS 3.3 METERS OF 1,153.6 g/t SILVER EQUIVALENT WITHIN 10.5 METERS OF 443.9 g/t SILVER EQUIVALENT AT THE SOUTHERN END OF THE SULPHIDE ZONE**

Inc. (TSXV:SLVR and

OTCQX:SLVTF) (“Silver Tiger” or the “Corporation”) has intersected 1,153.6 g/t total silver equivalent over 3.3 meters in the Sulphide Zone in Drill Hole ET-23-462 from 520.5 meters to 523.8 meters, consisting of 378.7 g/t silver, 6.17 g/t gold, 0.31% copper, 3.10% lead and 6.31% zinc within 10.5 meters grading 443.9 g/t total silver equivalent from 513.3 meters to 523.8 meters consisting of 1.51.5 g/t silver, 1.98 g/t gold, 0.14% copper, 1.39% lead and 2.95% zinc in the Sulphide Zone.

These high-grade intercepts have tripled the known strike length of the Sulphide Zone, bringing the originally indicated 250 meters of strike extent to more than 750 meters.

## SCP Research Analyst Brock Salier said,

*“We see potential for narrow high-grade vein mining from the Sulphide zone, which now extends over 750m along strike and ~150-200m down-dip at an average grade of 473g/t Ag Eq to date, and with amenable geometry.*

*“Being conservative, even if true width is only 2-5m (today’s hits are wider but are parallel to the structure), the Sulphide zone could host 10-25Moz AgEq and is still open.*

*Today we maintain our BUY rating and our C\$1.00/sh PT based on US\$1.50/oz AgEq on the existing resource, and same again for a nominal 85Moz.”*

## Mining Review 9th April 2023

### Mining Review 9th April 2023

It was a generally quiet week leading up to the Easter weekend on the company news front, but we still managed a few snippets, companies reporting included Gold Road Resources, Maple Gold, and Silver Tiger Metals.

# City Investors Circle Mining Review 9th April 2023

Gold, and silver in particular, had a very strong week, whereas the industrial metals had a poor one, as global economic slowdown fears resurfaced (did they ever really go away?).

Gold held above the \$2,000 level as banking concerns rumble on.

Owning some physical metal outside of the banking system looks a very strong bet at the moment. What is happening is that investors are withdrawing money from regional US banks, which are of the size that the government will allow to fail and go under, and investing those funds in the 'too large to fail banks' that they believe the government can't, and won't, allow to fail.

This is of course becoming a self fulfilling prophecy, and the larger banks are returning some of these funds back to the smaller ones to help capitalise them and prevent them from failing!

The whole banking system looks to be a shaky house of cards built on shifting sand, and one wonders how long before something significant breaks?

China announced further gold purchases in March, 18 tons may not seem a lot but they also keep all they produce, and they are the world's biggest gold producer.

A *Central Bank Digital Currency* backed by gold is rumoured to be being planned by Russia and China, with the backing of the

BRICS countries.

# Mining Review 18th September 2022

## Mining Review 18th September 2022

The story of the week is the price of gold being beaten down by 2.45% to \$1,674, due to an anticipated one percentage point rate hike in the USA in September.

Companies making news this week were American Creek Resources, Karora Resources, Neometals, and Silver Tiger Metals.

Rest in peace ma'am

## Mining Review 18th September 2022

The story of the week is the price of **gold** being beaten down by 2.45% to \$1,674, due to an anticipated 1 percentage point rate hike in the USA in September. The strong dollar is the focus at the moment, and until the FED pivots, gold is going to be in weak, and of course, the miners and explorers.

Every time **gold** looks as though it's recovering, the US make another interest rate announcement and down it goes again, almost as if were being manipulated downwards deliberately.

**Silver** had a very good week and stocks in the COMEX and LBMA vaults are reducing, although they still have plenty in store at the moment.

The **London Metal Exchange** faces a new lawsuit from a group of firms, including hedge fund AQR Capital Management, over its decision to cancel billions of dollars worth of trades, after the short squeeze in nickel forced the price to stratospheric levels, causing the LME to suspend trading and cancel trades to bail out a Chinese trader.

AQR, DRW Commodities LLC, Flow Traders BV, Capstone Investment Advisors LLC, and Winton Capital Management Ltd. have filed a commercial court claim in London against the LME, according to court records.

## Companies on our watchlist making news this week

**American Creek Resources, Karora Resources, Neometals, and Silver Tiger Metals.**

American Creek and Karora both released good drilling news, yet the market took it in its stride and both stocks trod

water, whereas in better times they would have shot up.

## City Investors Circle Mining Review Sunday Update 24th April 2022

Gold dropped 2% during the week, 1% on Friday alone, as fears are growing thwt the FED is going to tighten too much too fast, and will possibly now raise rates by 2.5% before the end of 2022.

This led down the gold juniors, rolling back some of their

decent gains over the last few weeks, and *may* just present us with an opportunity to buy some of the decent stocks on the dips. To be clear, I am referring to producing or very close to production here, not greenfield exploration companies.

## General mining news

The Chilean constitutional assembly voted down a proposal from the environmental committee, seeking to tighten up rules related to the protection of the country's natural resources, which would have hit the mining sector had they become law.

Given that Chile is the world's largest copper producer, this is very good news, as, had the motions been passed, they would

have made Chile virtually uninvestable as a jurisdiction in my view. That would, of course, have had serious implications for the EV industry and the price of copper.
