Aris Mining Delivers Strong Gold Production Above Guidance

Aris Mining Corp. (TSX: ARIS)

Reports gold production of 256,503 ounces (oz) for the full year ended December 31, 2025, representing a 22% increase over 2024 production of 210,995 oz, driven by the expanded Segovia mill and above-guidance performance at Marmato.

Fourth quarter production of 69,852 oz capped off a year of strong operational execution.

ARIS MINING DELIVERS STRONG 2025 GOLD PRODUCTION ABOVE GUIDANCE MID-POINT AND OUTLINES ACCELERATING GROWTH INTO 2026

2026 production expected to rise to 300,000–350,000 ounces, driven by Segovia ramp-up and Marmato expansion

Vancouver, Canada, January 21, 2026 – Aris Mining Corporation (Aris Mining or the Company) (TSX: ARIS; NYSE-A: ARMN) reports gold production of 256,503 ounces (oz) for the full year ended December 31, 2025, representing a 22% increase over 2024 production of 210,995 oz, driven by the expanded Segovia mill and above-guidance performance at Marmato.

Fourth quarter production of 69,852 oz capped off a year of strong operational execution.

2025 Gold Production Highlights:

• 2025 production of 256,503 oz, exceeding the guidance midpoint (230,000-275,000 oz).
• H2 2025 production of 143,088 oz, up 26% over H1 2025, reflecting the installation of Segovia’s second ball mill in June 2025.
• Cash balance of over US$390 million at December 31, 2025, net of the US$60 million cash used for the Q4 2025 acquisition of the remaining 49% interest in Soto Norte.

Neil Woodyer, CEO of Aris Mining, commented,

“2025 was a pivotal year for Aris Mining.

“The successful expansion and on-going ramp-up at Segovia drove 26% production growth in the second half of the year, while Marmato delivered steady, above-guidance results as underground development progressed and construction of the new CIP plant and related infrastructure advanced on schedule.

“Q4 2025 production at Segovia was modestly lower than Q3 due to unscheduled maintenance in November, and normal operations

resumed in December.

“We exited 2025 with strong momentum and a clear growth pipeline as we build a diversified, multi-asset gold producer with the potential to reach one million ounces of annual production, including Toroparu and Soto Norte.

“Looking ahead to 2026, we expect consolidated production of 300,000 to 350,000 oz, supported by continued ramp up at Segovia and increasing production from Marmato from Q4 2026 onwards.”
