Errington Metals Corp. Announces Upsize of Private Placement To $30 Million

Thunder Bay, Ontario, July 15, 2026 – **Errington Metals Corp. (TSX.V: EM)** ("Errington" or the "Company") is pleased to announce that it has amended its engagement with Stifel Canada in connection with a "best efforts" private placement offering that has been increased to aggregate gross proceeds of up to

$30,003,630.

The Company and Stifel Canada, on its own behalf and on behalf of a syndicate of agents (collectively, the “Agents”), have entered into an amended agreement pursuant to which the Agents have agreed to offer for sale, on a “best efforts” agency private placement basis, (i) up to 5,715,000 common shares of the Company (the “Offered Common Shares”) at a price of $3.50 per Offered Common Share for gross proceeds of up to $20,002,500, and (ii) up to 1,927,000 common shares of the Company that will qualify as “flow-through shares” within the meaning of subsection 66(15) of the Income Tax Act (Canada) (the “Tax Act”) (the “Flow-Through Shares”) at a price of $5.19 per Flow-Through Share for gross proceeds of up to $10,001,130 (collectively, the “Offering”). The Offered Common Shares and the Flow-Through Shares are collectively referred to as the “Offered Securities”.

The Company has agreed to grant the Agents an option to sell up to an additional 15% of the number of Offered Securities sold under the Offering, exercisable in whole or in part at any time up to 48 hours prior to the closing of the Offering, on the same terms as the Offering.

The net proceeds of the Offering from the sale of the Offered Common Shares will be used for continued exploration of the Company’s Sudbury Basin Complex, and for general working capital purposes.

The Offered Securities will be offered by way of private placement in each of the provinces and territories of Canada on a basis exempt from the prospectus requirements of applicable Canadian securities laws and, in the case of the Offered Common Shares, in the United States on a private placement basis to “qualified institutional buyers” and/or institutional “accredited investors”, and in such other jurisdictions as may be permitted provided that no prospectus, registration statement or other similar document is required to be filed in the United States or such other jurisdiction.

The Offered Securities will be subject to a statutory hold period in Canada of four months and one day from the Closing Date (as defined below). No offering memorandum will be delivered in connection with the Offering.

The Offering is expected to close on or about August 11, 2026 (the "Closing Date") and is subject to certain conditions including, but not limited to, the receipt of all necessary approvals, including the approval of the TSX Venture Exchange.

Errington Metals Expands Land Position in the World-Class Sudbury Basin

Thunder Bay, Ontario, July 7, 2026 – **Errington Metals Corp. (TSXV: EM)**(“Errington” or the “Company”) is pleased to announce that it has signed a purchase and sale agreement to acquire certain unpatented mining claims (the “Property”) to expand its land position in the world-class Sudbury Basin by approximately 48%, adding 2,727 hectares complementary to the Company’s growing portfolio (the “Acquisition”).

Highlights

- Acquisition adds 2,727 hectares in the Sudbury Basin, increasing total Company land holdings by approximately 48%
- Expansion strengthens Errington's district-scale position near established infrastructure and producing mines
- New claims provide additional exposure to prospective geological units associated with known sulphide mineralization in the region
- Agreement Terms:
  - Total cash payments of $150,000
  - 60,000 common shares
  - 1.5% Net Smelter Royalty with 50% buy back option

Matthew Gollat, President and CEO of Errington Metals said,

"This acquisition reflects our opportunistic and disciplined approach to growing Errington's land position in the Sudbury Basin when we see ground that is strategically located and geologically compelling and at a very attractive valuation.

"However, while this acquisition meaningfully expands our

regional footprint and gives us additional exposure to prospective targets, our primary focus remains firmly on advancing our current flagship property through systematic drilling, technical work, and the development of a clear path toward an initial mineral resource estimate."

An illustrative 3D video highlighting the Property location is available **here**

About the Property

The claims to be acquired provide Errington with an expanded footprint over prospective geology within the Sudbury Igneous Complex, one of the world's premier mining districts.

The majority of the claims cover the upper portion of the Sudbury Igneous Complex (Granophyre Unit), with the producing Garson Ni-Cu-PGE Mine located approximately 5 kilometres to the south.

The Property also covers portions of the lower Onaping Formation, the stratigraphic footwall rocks associated with the Company's other mineralized zones, consisting of volcanic and sedimentary rocks.
