Market Review April 2026

April produced one standout news release, the acquisition of G2 Goldfields by G Mining Ventures. This has focused attention of other neighbouring explorers in Guyana, such as Altair Minerals and Tajiri Resources.

Gold and other metals fluctuated with the news from the American attack on Iran, with the Iranian denials of US demands resulting in higher oil prices and lower gold prices.

The Market Review for April 2026 has been published.

The focus is on the volatility in oil and the inverse correlation to the gold price.

The major news story in April 2026 was the acquisition of **G2 Goldfields** by **G Mining Ventures**, for an average of $560 per ounce of gold.

The high price is down to the synergies the deal creates, with the projects next door to each other, and a mine already under construction.

+++++++

The highlighted company this month is **Altair Minerals**, an ASX listed company with exploration licences in the Greater Oko region, surrounding the south and west of G Mining Ventures' and G2 Goldfields' projects in Guyana, South America.

Other significant news in the Review included

Ora Banda Mining (ASX: OBM)

Announced record production and cashflow for Q1 2026.
