CATALYST METALS REQUEST FOR TRADING HALT

Pursuant to ASX Listing Rule 17.1, Catalyst Metals Limited (Company) requests a trading halt on its securities, effective immediately.

In accordance with ASX Listing Rule 17.1, the Company provides the following information:

- the trading halt is requested pending an application to the Federal Court of Australia by the Company regarding rectification of a technical compliance issue;
- the Company requests that the trading halt remain in place until the earlier of the time the Company releases an announcement regarding the matter or the commencement of trading on Wednesday, 27 August 2025; and

- the Company is not aware of any reason why the trading halt should not be granted or any other information necessary to inform the market about the trading halt.

The Company is requesting that a trading halt be placed on the Company's shares on the basis that:

- Catalyst has identified a minor, technical misstatement in its FY24 Consolidated Entity

Disclosure Statement, in strict non-compliance with sections 295(3A) and 295A(2)(ca) of the Corporations Act 2001 (Cth) (the Act); and

- six cleansing notices issued by the Company have stated that the provisions of Chapter 2M of the Act were complied with when sections 295(3A) and 295A(2)(ca) (which are contained in Chapter 2M of the Act) were not strictly complied with.

Following identification of the matters set out above, it was determined seeking rectification by applying for Court orders was the most appropriate course of action.

Although the Board does not consider the matters referred to above to be material or price sensitive, it has nevertheless requested a trading halt whilst it seeks remedial orders under section 1322 of the Act from the Supreme Court of Western Australia.

At the time that each cleansing notice was issued, it was the belief that the Company was compliant with Chapter 2M of the Act. The Company will seek orders that the cleansing notices are not invalid by reason of mistakenly stating that the provisions of Chapter 2M have been complied with when sections 295(3A) and 295A of the Act had not been complied with.

The Company is seeking a Court hearing on an urgent basis and will advise the market immediately on the outcome of the hearing.

The Board wishes to assure all shareholders that it is seeking a resolution to these matters as quickly as possible with a view to having the Company's shares reinstated to trading without delay.

Authorised for release by the Board of Directors of Catalyst Minerals Limited.

Gold Road Shares Halted Pending Takeover Announcement

Gold Road Resources (ASX: GOR)

The securities of Gold Road Resources Limited ('GOR') will be placed in trading halt at the request of GOR, pending it releasing an announcement.

	Gold Road	ASX : GOR
	Stage	Production (50% JV)
	Metals	Gold
	Market cap	A\$3.2 Billion @ A\$2.93
	Location	Laverton, Western Australia
	Website	www.goldroad.com.au

Comment

This looks like the end for Gold Road, Gold Fields have returned with a more sensible offer.

The fact the stock is halted suggests to me there is a good chance the deal will be consummated this time. If it is, I have an abundance of stocks to invest the proceeds in.

I am hoping for a price close to A\$4 personally.

Gold Road is wholly held in my ISA so no CGT worries.

Mining Review 17th March 2024

[Mining Review 17th March 2024](#)

News from Calidus Resources dominated the news this week, as they requested their stock be halted on the ASX, and then the ASX announced CAI was suspended from quotation.

The company announced a financial restructuring, which has some investors nervous about a potential downgrade of the stock upon its return to trading.

Metal Investor Forum Toronto 2024

City Investors Circle Mining Review 17th March 2024

News from **Calidus Resources** dominated the news this week, as they requested their stock be halted on the ASX, and then the ASX announced it was suspended from quotation.

The company announced a financial restructuring, which has some investors nervous about a potential downgrade of the stock upon its return to trading.

Calidus have struggled repaying debts whilst also delivering into a hedge book, so a recapitalisation of some sort was clearly needed. What we don't know is the form it will take, and what dilution effects there may be.

I suspect some sort of debt for equity swap, but those are always painful. I would hope that they might be able to stretch out the hedge by a couple of years to lower the monthly loss whilst gold prices are so high, and restructure the debt to something more manageable, enabling the company to make money.

A fairly quiet week otherwise, it's always quiet on the drilling front after PDAC as so many announcements are made before that event.

Cartier Resources brought out some much needed drill results at Chimo, high grade but a short interval, and **Orla Mining** announced the extension of oxide mineralisation at South Railroad in Nevada.

This week's announcements from our watchlist companies are below, click on the link to be taken to the full story.
