

Heliostar to Expand La Colorada with Strong Drill Results and Permits

[Heliostar Metals](#) (TSX.V: HSTR)

Announced drill results from the Veta Madre pit area at its operating La Colorada mine in Sonora, Mexico.

The drill program aimed to identify mineralization to expand the current 376,200 ounces of gold (17.1 Mt grading 0.68 grams per tonne). The additional mineralization can support a larger pit cutback.

June 18, 2026

Vancouver, Canada – June 18, 2026 – **HelioStar Metals Ltd.** (TSX.V: **HSTR**, OTCQX: HSTXF, FRA: RGG1) (“**HelioStar**” or the “**Company**”) is pleased to announce drill results from the Veta Madre pit area at its operating La Colorada mine in Sonora, Mexico.

The drill program aimed to identify mineralization to expand the current 376,200 ounces of gold (17.1 Mt grading 0.68 grams per tonne (“g/t”) gold) currently in reserves at La Colorada. The additional mineralization can support a larger pit cutback, called Veta Madre Plus that the Company intends to commence in early Q3, this year.

HIGHLIGHTS:

- Veta Madre drilling:
 - 10.9 m grading 22.1 g/t gold from 187.7 m, including 1.3 m grading 174 g/t gold
 - 40.8 m grading 2.23 g/t gold from 51.3 m, including 17.45 m grading 4.55 g/t gold
 - 147.2 m grading 0.70 g/t gold from 32.65 m, including 10.7 m grading 1.98 g/t gold
 - 20.65 m grading 3.35 g/t gold from 337.4 m
 - 32.0 m grading 1.65 g/t gold from 52.5 m
 - 52.35 m grading 1.23 g/t gold from 50.3 m
- Significant intervals of mineralization outside of the current Veta Madre reserve pit
- Final approvals for Veta Madre pit expansion received from the Mexican permitting agency
- Engineering of Veta Madre Plus pit is ongoing with waste stripping on track to start in early Q3 2026

HelioStar CEO, Charles Funk, commented,

“The expansion of the Veta Madre Pit is the next step in our plan to grow HelioStar’s production profile.”

“We are currently designing a larger pit shape to commence pre-stripping in the next two months and are targeting an additional 20,000 ounces of gold above the current mine

plan.

“With all permits received, we are on track to start producing gold from the pit in the first half of next year.

“Cash flows from La Colorada and San Agustin will support construction of our flagship Ana Paula project and are key deliverables for Heliostar’s aggressive growth ambitions.”

Permit Receipt

The Company recently received the final documentation for the Change of Use of Soils (“CUS”) permit for the Veta Madre pit expansion announced on December 15, 2025.

That is in addition to the existing environmental permits for the Veta Madre pit expansion and a leach pad expansion. The Company’s permits support both the technical report pit design for Veta Madre and the potential larger Veta Madre Plus pit.

City Investors Circle is based in the financial district in the City of London

We present interesting and exciting junior mining companies listed on the ASX and TSX stock exchanges to a group of city professionals, and private investors, all of whom are active investors with a mandate to invest in junior mining companies.

Our audience is selected and invited individually to ensure interest and relevance for the presenting company.

Meetings are non deal, small group, highly focused and engaged, with a lively Q and A to follow the main presentation.

We create awareness, and maintain interest in presenting companies by disseminating their future news to our entire investor group via email, social media, and our Monthly Review newsletter.

If you wish to present to our select group of active mining investors, please email andrew@city-investors-circle.com

This website is not sponsored, we are truly independent, and will always remain so.

Companies featured here have either presented to the Circle in London, or have been selected because they are considered to have interesting projects, in good jurisdictions, run by an experienced management team.

All information used in the preparation of this communication has been compiled from publicly available sources that we believe to be accurate and reliable, however, we cannot, and do not, guarantee the accuracy or completeness of this.
