

Omai Gold Intersects 7.74 g/t Au over 13.5m at Wenot

Omai Gold Mines (TSXV: OMG)

Announced assay results from eight additional drill holes from the recent drill program at its 100% owned Omai Gold Project in Guyana, South America.

Five of the eight holes were collared in West Wenot, two in Central Wenot and one at the east end of the Wenot deposit. All holes intersected multiple zones of gold mineralization.

Omai Gold Intersects 7.74 g/t Au over 13.5m and 6.30 g/t Au over 9.8m at Wenot and Commences Drilling Exploration Target

Toronto, Ontario – (March 26, 2026) – [Omai Gold Mines Corp. \(TSXV: OMG\)](http://www.omaigoldmines.com) (OTCQB: OMGGF) (“Omai Gold” or the “Company”) is pleased to announce assay results from eight additional drill holes from the recent drill program at its 100% owned Omai Gold Project in Guyana, South America.

Five of the eight holes were collared in West Wenot, two in Central Wenot and one at the east end of the Wenot deposit.

All holes intersected multiple zones of gold mineralization.

The objective of these holes was to fill gaps within the broader Wenot deposit, to convert some mineralized areas to the higher “indicated” confidence level and to provide further testing of the limits of the Wenot gold system.

The holes at West Wenot showed continued significant gold mineralization within the southern sediments.

Five diamond drill rigs are now drilling on the Wenot deposit, all working on a series of holes at the northeast portion of Wenot. These are focused on the prolific Dike Corridor at depths between -150 to -400m (the DC holes), in areas not previously tested. As these holes are collared further to the north, they will also explore potential northern splays.

Early next week, one drill rig will be deployed to test an intriguing geophysical anomaly known as “the Handle” that corresponds to a magnetic high trending northeast off of the Wenot deposit.

An additional drill rig will also commence an additional two holes stepping out on the East Wenot target area.

Highlights* from the recent drilling include:

- Hole 250DD-158
 - o 7.74 g/t Au over 13.5m
 - o Including 28.03 g/t Au over 3.1m
 - o 1.45 g/t Au over 44.4m

Elaine Ellingham, President and CEO commented:

“As these drill results continue to add to the confidence in Omai as a Tier 1 gold asset, we are advancing many aspects of work towards the next stages for the project.

“The Company is expecting the completion of its updated Mineral Resource Estimate (MRE) within the next couple of weeks and the Preliminary Economic Assessment (PEA) is expected a couple months following completion of the MRE.

“We have already set our sights on the work that will advance us towards a Pre-Feasibility or Feasibility Study. Metallurgical work, tailings studies and the important permitting initiatives are front and centre.

“At the same time, we will continue our very aggressive drill program with a focus on upgrading the large Wenot resource, extending the limits and testing certain priority exploration targets.”

We present interesting and exciting junior mining companies listed on the ASX and TSX stock exchanges to a group of city professionals and private investors, all of whom are active investors with a mandate to invest in junior mining companies.

Our audience is selected and invited individually to ensure interest and relevance for the presenting company.

Meetings are non deal, small group, highly focused and engaged, with a lively Q and A to follow the main presentation.

We create awareness, and maintain interest in presenting companies by disseminating their future news to our entire investor group via email, social media, and our Monthly Review newsletter.

If you wish to present to our select group of active mining investors, please email andrew@city-investors-circle.com

This website is not sponsored, we are truly independent, and will always remain so

Companies featured here have either presented to the Circle in London, or have been selected because they are considered to have interesting projects, in good jurisdictions, run by an experienced management team.

All information used in the preparation of this communication has been compiled from publicly available sources that we believe to be accurate and reliable, however, we cannot, and do not, guarantee the accuracy or completeness of this.
