

Mining Review 13th July 2025

Mining Review 13th July 2025

A very poor week for our producing watchlist companies, with good news being ignored.

Orla Mining and Kaiser Reef both reported record production at their projects in the last quarter. G Mining Ventures achieved nameplate capacity at the TZ mine, and West Red Lake Gold reported a positive PEA for Rowan.

Kaiser Reef Henty Gold mine, Tasmania – Credits Kaiser Reef

City Investors Circle Mining Review 13th July 2025

Mining Review 13th July 2025

A very poor week for our producing watchlist companies, with good news being ignored, or sold into. The price of gold and silver has held steady, so its just selling to rotate into early stage juniors as some commentators are stating, or profit taking.

The price of copper has surged around 10% in a week on Trump tariff fears, and a rush to import into the USA before any tariffs take effect. I think tariffs on copper would damage US industry so I seriously doubt they will occur, and if they do, only for a short while.

Orla Mining and **Kaiser Reef** both reported record production at their projects in the last quarter.

G Mining Ventures achieved nameplate capacity at the TZ mine, yet the price has fallen back almost a third from the peak a couple of months ago.

West Red Lake Gold Mines reported a positive PEA for Rowan. Normally this would cause a rise in share price, but WRLG has lost momentum since the fatality in the mine a couple of weeks ago. I suspect investors want some detail as to culpability before investing now.

A list of all the significant news releases from our watchlist companies last week is below, please click on the link to be taken to the full story.

Mining Review 22nd June 2025

Mining Review 22nd June 2025

A sombre week after the announcement of the tragic death of a worker in the Madsen Mine owned by West Red Lake Gold Mines.

Catalyst Metals and Meeka Metals announced positive drilling results.

City Investors Circle Mining Review 22nd June 2025

A sombre week after the announcement of the tragic death of a worker in the Madsen Mine owned by West Red Lake Gold Mines. The accident occurred underground at Madsen, and work has ceased whilst health and safety officials investigate the circumstances.

Our condolences, prayers ,and thoughts go out to his family.

A fundraise for his family, including his two children has been started. I urge everyone to support this good cause so that his dependants may have a future.

Anyone invested in WRLG should make a decent profit from their investment over time, so please spare something for a person that helped create shareholder value for us.

I am making a C\$205 donation today, please spare anything you can.

[To make a donation, please click HERE](#)

—

Catalyst Metals and **Meeka Metals** announced positive drilling results.

—

We initiated coverage of **AIC Mines**, a producing gold and copper miner in Queensland, Australia.

AIC is looking to scale by starting a second mine linked to the first, which is just the sort of company I like to invest in, minimising dilution by production and scaling up to a larger operation.

I also like the combination of copper and gold.

Mining Review 8th June 2025

Mining Review 8th June 2025

A terrible end to the week saw three of our best tier 1 watchlist stocks crash in price, with only one, Ora Banda Mining actually announcing any bad news.

Orla Mining and G Mining Ventures reversed badly on no news, although the gold price fell around 1%, so that would account for some of the fall, but not all.

Orla Mining – Musselwhite Gold Mine – Credits Orla Mining

City Investors Circle Mining Review 8th June 2025

A terrible end to the week saw three of our best tier 1 watchlist stocks crash in price on Friday, with only one, **Ora Banda Mining** actually announcing any bad news.

Orla Mining and **G Mining Ventures** reversed badly on no news, although the gold price fell around 1%, so that would account for some of the fall, but not all.

These three companies represent my largest personal holdings, so this was probably the biggest financial hit my personal portfolio has ever taken in a single day, and very painful.

I am a long term investor though, and I have learned to ride out some temporary market noise as long as the company fundamentals look similar to when I made my original investment decision.

I see no reason to sell any of the companies listed above, because I believe in their management's ability, and the projects quality to create shareholder value over the longer term.

If Orla Mining falls much more I may take the opportunity to top up as I am underweight Orla, a mistake I would like to rectify if the opportunity presents itself.

Silver is the metal to watch at the moment, it's really on a march, up 9.8% in the week, whilst gold trod water.

The **gold silver ratio** is down at 92, against the recent high of 103.2.

The PGM group are also rising, with Platinum and palladium 7% and 6% respectively.

Mining Review 29th September

2024

Mining Review 29th September 2024

West Red Lake Gold Mines announced a high-grade gold discovery, and a Town Hall Meeting to meet local citizens to highlight the opportunities at the intended mine reopening in 2025.

BPM Minerals completed drilling at their exciting Louie Project area.

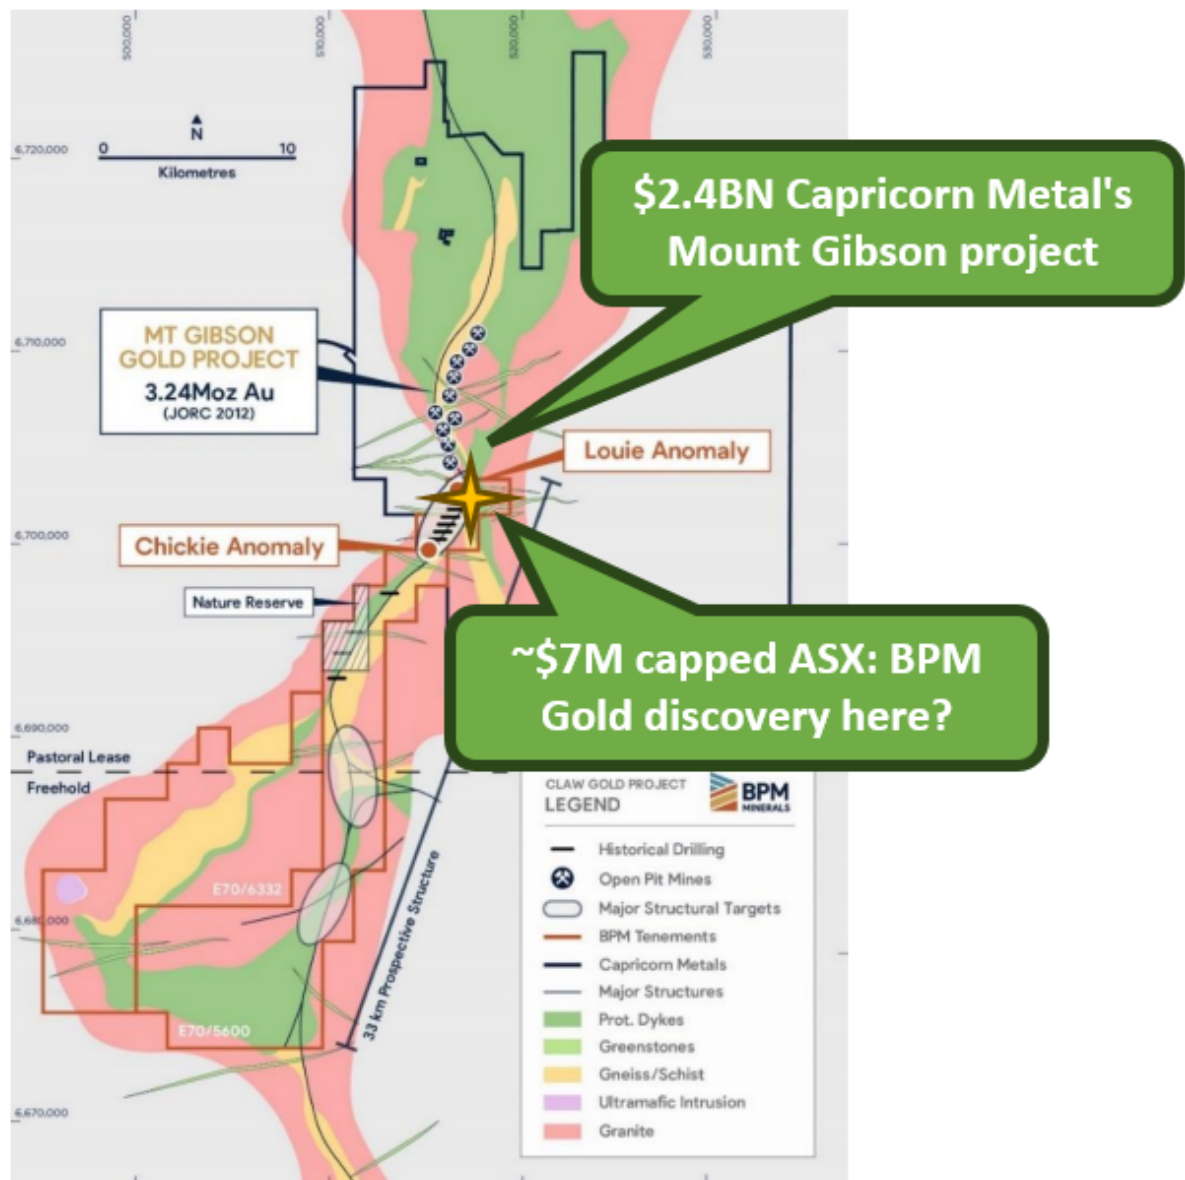

Fig. 5 - Claw Project

BPM Minerals' area map showing the proximity to Capricorn Metal's Mount Gibson Project.

City Investors Circle Mining

Review 29th September 2024

The week started quietly and then the Chinese government announced a huge economic stimulus package, and precious, base, and industrial metals all moved up in anticipation of greater demand.

Gold and silver remain strong, with the latter now starting to outpace the former, with the gold silver ratio dropping to around 82.

Copper jumped on the Chinese stimulus news just as it looked in danger of falling below \$4 lb, and iron ore leapt back over \$100 after looking in danger of falling below \$90.

--

West Red Lake Gold Mines announced a high-grade gold discovery, and a Town Hall Meeting to meet local citizens to highlight the opportunities at the intended mine reopening in 2025.

Interestingly the share price is dropping back a little since that good news, which may present an opportunity if it drifts any further.

BPM Minerals completed drilling at their exciting Louie Project area, very close to **Capricon Metal's** Mt. Gibson gold project. This is a stock to keep an eye on as if they produce good drill results they must surely be a target for the larger neighbour just over the fence?

West Red Lake Gold MRE Update

for Rowan

West Red Lake Gold Mines (TSX.V: WRLG)

Announced an updated Mineral Resource Estimate effective as of March 1, 2024, on its 100% owned Rowan Mine Deposit, located in the Red Lake Gold District of Northwestern Ontario, Canada.

West Red Lake Gold Mines	TSX.V : WRLG
Stage	Exploration / Development
Metals	Gold
Market cap	C\$207 m @ 93 cents
Location	Ontario, Canada

West Red Lake Gold Announces Mineral Resource Update for the Rowan Mine Deposit

VANCOUVER, British Columbia, April 26, 2024 (GLOBE NEWSWIRE) –**West Red Lake Gold Mines Ltd. (“West Red Lake Gold” or “WRLG” or the “Company”)** (TSXV: WRLG)(OTCQB: WRLGF) announces an updated Mineral Resource Estimate (“MRE”) effective as of March 1, 2024, on its 100% owned Rowan Mine Deposit, located in the Red Lake Gold District of Northwestern Ontario, Canada.

- **Indicated resources** of 476,323 tonnes grading 12.78 grams per tonne (“g/t”) gold (“Au”), for a total of 195,746 ounces (“oz”) Au.
- **Inferred resources** of 410,794 tonnes grading 8.76 g/t Au, for a total of 115,719 oz Au.

KEY TAKEAWAYS:

- The 2024 MRE has added a significant portion of higher confidence Indicated ounces at grades 40% higher than the 2022 MRE.
- Relative to the 2022 Rowan MRE, there was a decrease in the Inferred mineral resources from approximately 827,000 ounces to 116,000 ounces and an increase in Indicated mineral resources from zero to approximately 196,000 ounces. The drop in Inferred metal content is

mainly attributed to 1) conversion of Inferred to Indicated resources, 2) a more rigorous modeling approach, and 3) more stringent resource estimation parameters implemented to account for the high gold grades typically seen at Rowan.

- The integration of oriented drilling data and top-to-bottom geochemical analysis allowed the team to reconstruct the geologic interpretation at Rowan resulting in a much more tightly constrained, higher-grade resource that should lend itself more effectively to any future reserve calculation and underground mining design (Figure 1).
- A \$4.5M drill program is planned and fully funded for up to 15,000m of drilling at Rowan in 2024, focused on growth and resource expansion on the main Rowan Mine deposit (Figure 3).

Shane Williams, President & CEO, stated,

“The 2024 Rowan MRE model represents a complete reinterpretation of the structural controls on mineralization and reflects a more conservative estimation approach in-line with industry best practices.

“When drilling off structurally complex high-grade gold systems that contain significant amounts of coarse gold it is essential to have a solid understanding of the geology and controls on mineralization early in the process.

"We are very encouraged to see a significant portion of higher confidence Indicated resources come from this MRE update – and at grades 40% higher than the 2022 MRE.

"The objective for this year at Rowan will be growth, and we continue to see significant potential for expanding this deposit at depth and along strike."

Mining Review 24th September 2023

Mining Review 24th September 2023

We announced the initiation of coverage of West Red Lake Gold recently, and they delivered some decent drill results this week.

The other watchlist company reporting good results was Karora Resources, at its Beta Hunt Mine in Western Australia.

If you need clarification of any information contained in this note, or have any questions, I will be delighted to assist – Please email andrew@city-investors-circle.com

=====

City Investors Circle is based in the financial district in the City of London

We present interesting and exciting junior mining companies listed on the ASX and TSX stock exchanges to a group of city professionals, and private investors, all of whom are active investors with a mandate to invest in junior mining companies.

Our audience is selected and invited individually to ensure interest and relevance for the presenting company.

Meetings are non deal, small group, highly focused and engaged, with a lively Q and A to follow the main presentation.

We create awareness, and maintain interest in presenting companies by disseminating their future news to our entire investor group via email, social media, and our Monthly Review newsletter.

If you wish to present to our select group of active mining investors, please email andrew@city-investors-circle.com
