

# Tyranna Resources – Wilcherry project could be one of Australia's largest graphite deposits

**Tyranna Resources {ASX: TYX}**

Tyranna's partner in the Wilcherry project, [Alliance Resources {ASX: AGS}](#), have announced they may have discovered one of Australia's largest graphite deposits.

Tyranna own 25%, Alliance 75% of the project.

Tyranna Resources MD Bruno Seneque presents to the City Investors Circle London.

**Alliance Resources and Tyranna Resources reckon they could have their foot on one of the biggest graphite deposits in Australia..**

.

Tyranna's partners, [Alliance \(ASX:AGS\)](#) now estimates it has a target of 24.5 million to 59 million tonnes of graphite grading between 5.5 per cent and 10.2 per cent.

**The exploration targets are only conceptual in nature, however, because not enough exploration has been conducted to estimate a mineral resource.**

Discovered in mid-2017, Yeltana is part of the Wilcherry project – a joint venture between Alliance (75%) and [Tyranna Resources \(25%\)](#).
