

Wesdome Gold looking to double production

Wesdome Gold {TSX: WDO}

CEO Duncan Middlemiss, in a video interview with Kitco, has laid out his plans for the company to double production from 100,000 ounces of gold per annum to 200,000 per annum when the Kiena mine commences production.

Wesdome currently produces around 100,000 ounces of gold from its Eagle River Complex. To hear the interview

Wesdome Gold {TSX: WDO}

CEO Duncan Middlemiss, in a video interview with Kitco, has laid out his plans for the company to double production from 100,000 ounces of gold per annum to 200,000 per annum when Kiena commences production.

This will propel Wesdome into a higher echelon of gold producers, with the advantage of being in a safe jurisdiction that benefits from a currency that has fallen versus the US dollar, maintaining costs but increasing revenues.

Wesdome currently produces around 100,000 ounces of gold from its Eagle River Complex. To hear the interview please click [HERE](#)
