

# West Red Lake Gold Intersects 9.15 g/t Au over 3.3m

[West Red Lake Gold Mines \(TSX.V: WRLG\)](#)

Reported drill results from its 100% owned Madsen Mine located in the Red Lake Gold District of Northwestern Ontario, Canada.

This round of drill results from the Madsen Mine were all drilled from underground on the North Austin Zone, which represents a new area of high-grade mineralization.

# West Red Lake Gold Intersects 9.15 g/t Au over 3.3m and 10.66 g/t Au over 2.6m at North Austin Zone – Madsen Mine

**West Red Lake Gold Mines Ltd. (TSX.V: WRLG)** (“West Red Lake Gold” or “WRLG” or the “Company”) is pleased to report drill results from its 100% owned Madsen Mine located in the Red Lake Gold District of Northwestern Ontario, Canada.

This round of drill results from the Madsen Mine were all drilled from underground on the North Austin Zone, which represents anew area of **high-grade mineralization** extending the current Madsen resource to the northeast.

This program was designed for expanding the North Austin zone to follow-up on the initial results previously announced in November, 2023 (see press release dated [November 21<sup>st</sup>](#)).

Notably, hole MM24X-03-5195-006 intercepted **8.12 g/t Au over 2m**, suggesting **vertical continuity of almost two full mine levels, or approximately 50m, below any workings at the East Portal.**

Additionally, holes MM24X-03-5195-001, -003 and -004 all intercepted high-grade mineralization beneath current workings

effectively **extending a known ore shoot approximately 25m down plunge.**

The WRLG team believes these intercepts are indicative of the resource growth potential that still exists at the Madsen Mine asset.

*The North Austin Zone sits **adjacent to existing underground development** marking it as a high caliber target that could potentially be developed early during future mine restart and production.*

The North Austin Zone remains open down-dip and along strike to the northeast and will continue to be a priority expansion target as underground drilling continues.

## **HIGHLIGHTS:**

- **Hole MM24X-03-5195-003** Intersected **3.3m @ 9.15 g/t Au**, from 148.7m to 152m, Including **1m @ 15.91 g/t Au**, from 148.7m to 149.7m, also Including **0.7m @ 18.62 g/t Au**, from 150.7m to 151.4m.
- **Hole MM24X-03-5195-001** Intersected **2.6m @ 10.66 g/t Au**, from 154.4m to 157m, Including **0.9m @ 18.35 g/t Au**, from 155.4m to 156.3m.
- **Hole MM24X-03-5195-006** Intersected **2.4m @ 8.12 g/t Au**, from 85.3m to 87.7m.
- **Hole MM24X-03-5195-004** Intersected **1.4m @ 10.55 g/t Au**, from 141m to 142.4m.

## Shane Williams, President & CEO, stated,

*"This latest round of North Austin results are very encouraging and demonstrate the untapped growth potential that still exists in this part of the Madsen deposit.*

*"As we continue to advance the East Portal decline, we will be establishing additional drilling platforms to continue extending this zone at depth."*

During 2023, the Company drilled a total of 28 holes for 2,524m of NQ diamond drill core (Expansion) and 71 holes for 4,611m of BQ diamond drill core (Definition) from underground at Madsen.

Since underground drilling resumed in early January 2024 the Company has completed 1,651m of Expansion drilling and 689m of Definition drilling. In total, 23 diamond drill holes for 2,340m have been completed so far in 2024 at the Madsen Mine.

Fire and metallic screen assays have been returned for 20 out of 23 holes completed, with 2 holes pending assays and QAQC.

## **City Investors Circle is based in the financial district in the City of London**

We present interesting and exciting junior mining companies listed on the ASX and TSX stock exchanges to a group of city professionals, and private investors, all of whom are active investors with a mandate to invest in junior mining companies.

Our audience is selected and invited individually to ensure interest and relevance for the presenting company.

Meetings are non deal, small group, highly focused and engaged, with a lively Q and A to follow the main presentation.

We create awareness, and maintain interest in presenting companies by disseminating their future news to our entire investor group via email, social media, and our Monthly Review newsletter.

If you wish to present to our select group of active mining investors, please email [andrew@city-investors-circle.com](mailto:andrew@city-investors-circle.com)
