

West Red Lake Gold Intersects 27.15 g/t Au over 10.28m

West Red Lake Gold Mines (TSX.V: WRLG)

Reported drill results from its 100% owned Madsen Mine located in the prolific Red Lake Gold District of Northwestern Ontario, Canada.

This first round of drill results from the Madsen Mine were all drilled from underground on the North Austin Zone, which represents a new area of high-grade mineralization extending the current Madsen resource to the NE.

West Red Lake Gold Intersects 27.15 g/t Au over 10.28m and 22.31g/t Au over 8.5m at North Austin Zone – Madsen Mine

West Red Lake Gold Mines Ltd. (“West Red Lake Gold” or “WRLG” or the “Company”) (TSXV: WRLG) (OTCQB: WRLGF) is pleased to report drill results from its 100% owned Madsen Mine located in the prolific Red Lake Gold District of Northwestern Ontario, Canada.

This first round of drill results from the Madsen Mine were all drilled from underground on the North Austin Zone, which represents a new area of high-grade mineralization extending the current Madsen resource to the northeast.

The WRLG team believes these intercepts are indicative of the **exceptional resource growth potential** that still exists at the Madsen Mine asset.

The North Austin Zone sits adjacent to existing underground development marking it as a high caliber target that could potentially be developed early during future mine restart and production.

The North Austin Zone remains open down-dip and along strike to the northeast and will continue to be a priority expansion target as underground drilling continues.

HIGHLIGHTS:

- **Hole MM23X-02-4980-003** Intersected **10.28m @ 27.15 g/t Au**, from 28.72m to 39.00m, Including **1m @ 33.11 g/t Au**, from 31.50m to 32.50, also Including **1m @ 226.85 g/t Au**, from 32.50m to 33.5m.
- **Hole MM23X-02-4980-001** Intersected **8.5m @ 22.31 g/t Au**, from 26.95m to 35.45m, Including **0.55m @ 186.56 g/t Au**, from 26.95m to 27.50m, also Including **1m @ 80.76g/t Au**, from 27.50m to 28.50m.
- **Hole MM23X-02-4980-004** Intersected **7.36m @ 8.98 g/t Au**, from 29.74m to 37.10m, Including **1m @ 40.81 g/t Au**, from 31.40m to 32.40m.

Shane Williams, President & CEO, stated,

“We are very encouraged by this first round of results out from the underground drilling campaign at the Madsen Mine.

“Our geologic team quickly recognized the exploration potential in the North Austin area, which represents a high-grade expansion target that sits very close to existing underground infrastructure.

“While a good portion of the underground drill meters will continue to be focused on definition and increasing confidence in the current resource, we will continue to take advantage of near-mine organic growth opportunities that could materially enhance and increase the mineral resource inventory at Madsen.”

City Investors Circle is based in the financial district in the City of London

We present interesting and exciting junior mining companies listed on the ASX and TSX stock exchanges to a group of city professionals, and private investors, all of whom are active investors with a mandate to invest in junior mining companies.

Our audience is selected and invited individually to ensure interest and relevance for the presenting company.

Meetings are non deal, small group, highly focused and engaged, with a lively Q and A to follow the main presentation.

We create awareness, and maintain interest in presenting companies by disseminating their future news to our entire investor group via email, social media, and our Monthly Review newsletter.

If you wish to present to our select group of active mining investors, please email andrew@city-investors-circle.com

This website is not sponsored, we are truly independent, and will always remain so.

Companies featured here have either presented to the Circle in London, or have been selected because they are considered to have interesting projects, in good jurisdictions, run by an experienced management team.

All information used in the preparation of this communication has been compiled from publicly available sources that we believe to be accurate and reliable, however, we cannot, and do not, guarantee the accuracy or completeness of this.
