**West Red Lake Gold Mines Ltd.** (“**West Red Lake Gold**” or “**WRLG**” or the “**Company**”) (**TSXV: WRLG**) (**OTCQB: WRLGF**) is pleased to announce a fully funded infill drilling program at its 100% owned Fork Deposit located approximately 250 metres (“m”) southwest from its Madsen Mine in the Red Lake Gold District of North western Ontario, Canada.

—

**Shane Williams, President and CEO stated;**

*“Once considered a somewhat diffuse, intermediate-grade portion of the satellite resource inventory at Madsen, the core of Fork has been re-envisioned as a high-grade near-mine resource expansion target that is a priority for immediate advancement.*

*“The shallow nature of the deposit will allow for efficient definition drilling from surface and, with its high grades and proximity to existing underground development, it is easy to envision this core zone of Fork becoming part of the production pipeline at Madsen, based on successful infill drilling results.*

*“The Madsen Mine shows clear potential to become a sizeable and long-lived operation, with several satellite deposits not yet considered in the mine plan, multiple untested exploration targets, and a 1.5-million-ounce indicated resource that is wide open for expansion at depth.*

*“Fork is the first opportunity we are advancing to make good on that potential. As an unmined and near-surface deposit sitting just 250 metres from Madsen, Fork offers a non-remnant zone of mineralization that could be accessed within a few months of development and sequenced into the mine plan with ease, providing additional optionality and ounces in the near term.*

*“With Madsen nearing commercial production in Q1 of 2026 we are ready to actively pursue a hub-and-spoke growth model at Madsen. Simultaneous surface drilling programs at Fork and Rowan take us in that direction and we will continue to evaluate and develop additional high-grade gold opportunities within the Red Lake district.”*

## **City Investors Circle is based in the financial district in the City of London**

We present interesting and exciting junior mining companies listed on the ASX and TSX stock exchanges to a group of city professionals, and private investors, all of whom are active investors with a mandate to invest in junior mining companies.

Our audience is selected and invited individually to ensure interest and relevance for the presenting company.

Meetings are non deal, small group, highly focused and engaged, with a lively Q and A to follow the main presentation.

We create awareness, and maintain interest in presenting companies by disseminating their future news to our entire investor group via email, social media, and our Monthly Review newsletter.

If you wish to present to our select group of active mining investors, please email [andrew@city-investors-circle.com](mailto:andrew@city-investors-circle.com)
