be deployed taking fleet to three at Fletcher.

Maiden Mineral Resource Estimate targeted for late Q2 / early Q3 FY25.

Westgold Managing Director and CEO Wayne Bramwell commented:

> *“The Fletcher Zone is key to expanding gold production at Beta Hunt. It is a proximate, parallel lode to the existing 1.6Moz Western Flanks system and Westgold is currently advancing decline development from Western Flanks towards Fletcher to access a new mining front.*

“Accelerating drilling will rapidly unlock value at Fletcher. To date Fletcher has only 32 drill holes into this emerging 2km long target and Westgold is now mobilising an additional 2 drill rigs to Beta Hunt to accelerate this program.

Westgold looks forward to expanding production at Beta Hunt and delivering a maiden Mineral Resource Estimate for the emerging Fletcher Zone in late Q2 / early Q3 FY25.”
