Westgold Managing Director and CEO Wayne Bramwell commented:

“Drilling continues to unlock value and point to the potential scale of the Bluebird-South Junction mining complex at Meekatharra.

“The commencement of mining on the South Junction Lode is a company milestone, achieved in short order by a focussed team.

“This lode is one of many mineralised lodes being tested across the Bluebird-South Junction mining complex, with the Polar Star Lode the next target to being evaluated.

“Westgold can now contemplate a significantly larger, multi-decline mining complex emerging on the doorstep of our 1.6-1.8M tpa processing plant.

“Each new mining front we define can increase mine output, with the continued expansion of Bluebird-South Junction providing new opportunities to reduce haulage and optimise processing infrastructure across our Murchison business”.
