FY26 Guidance Maintained

## **Westgold Managing Director and CEO Wayne Bramwell commented:**

*"In Q2, FY26 Westgold delivered record quarterly cash build of \$365M and production of 111,418 ounces.*

*"Continued operational improvement from our assets continued and we had the opportunity to super charge our cash build by purchasing a higher volume of third-party ore. This third party ore delivered 22,317 ounces and monetising it further strengthened our balance sheet.*

*"These factors culminated in the Group closing the quarter with a treasury of \$654M.*

*"Costs this quarter, reflected deliberate choices made to maximise value.*

*"Operational outputs continued to improve in the Murchison, whilst the Southern Goldfields were stable. The election to process higher volumes of softer, higher-grade oxide in the*

*Murchison allowed us to significantly increase milling throughput at Meekatharra and accelerated cash generation, even though this third-party ore carries a higher unit cost.*

*“Looking ahead, our 3-Year Outlook (3Y0) clearly maps a pathway to structurally lower our cost base. The ramp up of our Bluebird–South Junction mine at Meekatharra, Great Fingall at Cue and increasing outputs from Beta Hunt in Kambalda will underpin higher grade ore replacing the low-grade stockpiles milled to maintain processing throughputs at our largest processing hubs.*

*“In parallel we are actively advancing a range of Westgold owned open pit targets to bring value forward in the 3Y0.*

*“As we enter the second half of FY26 our focus remains on more consistent operational delivery. Our key growth projects are advancing to plan and alongside a non-core divestment programme, the planned demerger and IPO of Valiant Gold during H2, FY26 can create additional ore supply for our Murchison processing hubs and unlock latent value for our shareholders.*

*“Westgold’s momentum continues to build. The business has scale, is debt free, unhedged and with a clear plan to reduce our cost structure, this team is committed to unlocking greater value from our portfolio.”*
