Westgold Beta Hunt Drilling Update – Fletcher Drilling Continues to Impress while Mason Zone Emerges

Perth, Western Australia, 18 February 2025: Westgold Resources Limited (ASX | TSX: WGX – Westgold or the Company) is pleased to provide an update on resource development drilling activities at the Beta Hunt mine at Kambalda, Western Australia.

This includes further results from Westgold's inaugural

drilling program at the Fletcher Zone and details of planned drilling of the potential southern extension of Fletcher (the Mason Zone target).

Highlights

BETA HUNT (Fletcher Zone)

■ Additional large, high-grade drilling intervals returned at Fletcher including:

• 41.00m at 7.99 g/t Au and 19.00m at 5.95 g/t Au in hole FF475SP-62AE; and

• 38.00m at 6.80 g/t Au in hole WF440VD-55AE.

■ Five drill rigs operating at Fletcher

■ Maiden Mineral Resource Estimate – to be released to the market late Q4,FY25.

BETA HUNT (Mason Zone)

■ Mason zone target interpreted as the southern fault offset extension of the Fletcher

zone with the combined strike length of the two zones (Mason + Fletcher) now ~4km

• Mason drill programs expected to commence in Q4 FY25

Westgold Managing Director and CEO Wayne Bramwell commented:

"Westgold is mining two zones at Beta Hunt now – Fletcher will be the third.

“We already have access into Fletcher and once drilled, it will be an additional and independent source of ore production.

“At Mason, it is too early to speculate on its scale and significance. The historical drilling results here are encouraging, with some of the better results including 19.00m @ 10.73g/t Au, 35.35m @ 3.50g/t Au, 38.00m @ 2.87g/t Au and 5.20m @ 20.67g/t Au.

“Our early interpretation is Mason is the faulted offset of the Fletcher Zone, and if so would take the combined strike length to circa 4km.

“Unlocking value at Beta Hunt requires building a robust understanding of the various Beta Hunt orebodies with a long term mine plan focussed on maximising cash flow.

“The next step is to deliver a mineral resource estimate for Fletcher which we expect to announce to the market late in Q4 FY25.”

City Investors Circle is based in the financial district in the City of London

We present interesting and exciting junior mining companies listed on the ASX and TSX stock exchanges to a group of city professionals, and private investors, all of whom are active investors with a mandate to invest in junior mining companies.

Our audience is selected and invited individually to ensure interest and relevance for the presenting company.

Meetings are non deal, small group, highly focused and engaged, with a lively Q and A to follow the main presentation.

We create awareness, and maintain interest in presenting companies by disseminating their future news to our entire investor group via email, social media, and our Monthly Review newsletter.

If you wish to present to our select group of active mining investors, please email andrew@city-investors-circle.com
