Westhaven Gold Drills 23.03 M of 37.24 G/t Gold

Westhaven Gold Corp. (TSX.V: WHN)

Announced drill results from its ongoing drill campaign at its Shovelnose gold property, located within the prospective Spences Bridge Gold Belt.

The glory hole was 23.03 Metres of 37.24 G/t Gold and 209.52 G/t Silver. […]

Metals	Gold
Market cap	C$86 m @ 68 cents
Location	British Columbia, Canada

Westhaven Gold drill plan map April 2022, Shovelnose Mountain, British Columbia.

Westhaven Gold Drills 23.03 Metres of 37.24 G/t Gold and 209.52 G/t Silver, Including

1.12 Metres of 294 G/t Gold and 2,110 G/t Silver at the FMN Zone, Shovelnose Gold Property

Vancouver, B.C. – April 6th, 2022 – **Westhaven Gold Corp. (TSX.V: WHN)**is pleased to announce drill results from its ongoing drill campaign at its 100% owned 17,623-hectare Shovelnose gold property.

Shovelnose is located within the prospective Spences Bridge Gold Belt (SBGB), which borders the Coquihalla Highway 30 kilometres south of Merritt, British Columbia.

Westhaven Gold management comments

"We are pleased to report the highest gold-silver intercept (857.64 gram-metres) ever drilled on the Shovelnose gold property, at the FMN Zone. Hole SN22-212 (23.03m of 37.24 g/t gold and 214.70 g/t silver) is over 2 kilometres from the heart of the South Zone resource.

"We now have multiple gold mineralized drill intercepts at the FMN zone over 500 metres of strike length that begin at bedrock surface in areas with minimal overburden. We believe the FMN zone has the potential to contribute significantly to the property wide precious metals inventory.

“It is not uncommon in enriched epithermal systems to discover multiple high-grade gold chutes and, given the strong nature of this system and low drill density in this area, we believe there is going to be more high-grade chutes discovered along this ~4-kilometre trend.

“In addition to the drill currently located at the FMN Zone, a second drill has been added at the Alpine Zone focused on following-up on Hole SNR21-55, which intersected 3.13 metres of 45.23 g/t gold and 195.64 g/t silver.

“Recent drilling at the Alpine Zone has encountered similar geology to what was encountered in SNR21-55, including intervals containing marcasite, adularia and ginguro.”

Gareth Thomas, President & CEO, Westhaven Gold

Westhaven is reporting assays for 22 holes from its ongoing drill campaign at Shovelnose.

Recent Drilling Highlights:

- **SN22-212 (FMN: 93.94-116.97m)**
  23.03 metres (m) of 37.24 g/t gold (Au) and 209.52 g/t silver (Ag),

including 1.12m of 294.00 g/t Au and 2,110 g/t Ag,**(79.66-93.94)**
14.28m of 2.07 g/t Au and 7.38 g/t Ag,
including 1.34m of 12.95 g/t Au and 34.40 g/t Ag.

(140.00-163.76)
23.76m of 1.45 g/t Au and 9.23 g/t Ag.

City Investors Circle is based in the financial district in the City of London

We present interesting and exciting junior mining companies listed on the ASX and TSX stock exchanges to a group of city professionals, and private investors, all of whom are active investors with a mandate to invest in junior mining companies.

Our audience is selected and invited individually to ensure interest and relevance for the presenting company.

Meetings are non deal, small group, highly focused and engaged, with a lively Q and A to follow the main

presentation.

We create awareness, and maintain interest in presenting companies by disseminating their future news to our entire investor group via email, social media, and our Monthly Review newsletter.

If you wish to present to our select group of active mining investors, please email andrew@city-investors-circle.com
